The Realization Of This Insane Age Pt 3

Bro. Vin Dayal

Sunday 16th January 2005

Amen we are thankful for that to have leadership in this dark hour, in this hour when men are leaning on their own understanding. The bible says lean not on your own understanding, let the mind that was in Christ Jesus be in you. We are happy for that this morning, this great message, this great messenger; an angel is a messenger, the messenger was God himself bringing the message of the revelation of himself to bring a people into union with himself to reflect his very own life yourself. Aren't you glad you're called unto something like that that we didn't come here to keep a denominational programme, we didn't come here because we are religions we come here because we are called. Those he foreknew he predestinated, those he predestinated is them he called, those whom he called he justified, those he justified he has already glorified.

The bible says what shall we say for these things, who can be against us. Sometimes it feels like God is not for you, you look at it with the human eye everything seems to be going wrong, you're being persecuted you're being rejected it seems you are going upstream, it seems everything is against you sometimes when these things are happening you have blessed assurance that you're are in the very will of God. Who can think that Jesus in Gethsemane and in Judgment hall striped and broken and laughed at and scorned at, Calvary was in the perfect will of God that was the direct perfect plan of God? Is that right? The lamb was slain before the foundation of the world since back in eternality it worked all through that time to that very hour and right there it was the greatest expression of God's love. What a great thing that was friends. He stood there in that dark hour saying what shall I say Father save me from this hour but for this cause came I unto this hour unto this end I was born and for this cause came I into the world. Blessed be his wonderful name. How many know this is the same kind of hour we have come to? We are living in a generation, we are living in a world in the midst of a people who has rejected this message and who has being indicted by God, tried in a court trial and found guilty and shut up in prison awaiting

execution. We are walking around in a condemn world like Noah was, a justified man in a condemn world and then God move him out of the world and then moved him into the ark and then moved him in the new world and while he was doing that this world was passing away and by the time he came in that new world there was no old world because the people was passed away.

From the time God came down and separated him it was taking place these are the last days we are coming to church. You may not realize this some people looking for a great future, they now come in the message and full of zeal and enthusiasm no no friends we are in the last days of coming to church, it's running out, the days are being numbered we won't be able to gather like this. How could we see what is happening in the world? How could we see the hunger in the heart of the real believer? How could we see what is happening with the prophet to this present time and still think there is a future? From the time Elohim turned his back and discern that heart open up the mysteries, Abraham understood he begin to plead and cry and beg God because he knew the wrath of God was at hand. That is what that coming meant, sure it had deliverance for him but for the world that is what it meant.

That's the time we are in friends never forget that that is what this message meant.

If you know a man called brother Branham and I believe that God sent that man that was not to come from a man that was God in human flesh to reveal the son of man in the last days as it was in the days of Noah as it was in the days of Sodom in Sodom, God was in a man not the corporal body they killed on the cross, a man that Abraham looked and called Lord Elohim that's the time friends. That sobers you in your heart when you realize that we are here in this hour for its one of these days like that. It is just going to happen and then people find themselves in the tribulation period and they say wasn't there supposed to be a rapture. Its already happened and they didn't even know it and while that is happening the one is taken and the other left, Lord there where the carcass is there would the eagles be gathered together, not vultures, eagles because they are being freed from that cage. What is in that cage? Is vultures but the eagles are taken out I trust that as we come and even gather this morning in his house in his presence we have a couple of request here. We have a note of thanks Bro and Sis.

Harangee would like to thank the Lord for the healing of their son after prayer was offered on Sunday amen. Praise his mighty name. They took him back to the hospital they run test after test after test there was nothing there amen. Hallelujah! Glory be to God! Thank you Jesus. They give him a little space to come out of the hospital, the mother had a little faith and brought him here last week and you saw how the Holy Spirit moved right there in the service amen. The family is happy they are blessed that God had being gracious to them that's in the bible.

That's what they did in the Old Testament in the New Testament the woman picked up a dead baby and she bring him in the presence of the word, in the New Testament the man bring his epileptic son and that's what it is people having faith to know where the mercy seat of God. Is that's right? Friends that's what this word means to us the very bleeding word of the Lord Jesus Christ make me think.

Also I didn't mention it from the desk but to me it was such an outstanding thing that God did for Bro. Miguel's boy there, his head was swollen then about ten days and to see that when he brought the child back and show me it was so completely healed. You couldn't tell that the boy had anything on his head amen. That's the same night we had the thanksgiving service the Holy Spirit just brought it back to remembrance and says call the boy before we had taken the Lord's supper right there and to see how God is mindful of these things his hands reaching out. Whether it's a spiritual need whether it's a physical need, whether its spiritual deliverance whether its physical deliverance, it's a dual atonement he forgive us for all our iniquities and he heals us of all our diseases. Sin and sickness that came through the fall but the lamb came and was slain to take care of these things, you don't have to stand here in the house of God, in the presence of God in the last few days and then be depressed you have need of this and you have need of that, you're struggling no that's why this is a privilege; when two or three are gathered in my name there I'm in the midst. So that when you come and you know that he is there among the people he's in speaking distance he's in hearing distance you can reach out and touch him as he goes by. Touching Jesus is all that matters you can come in one condition, you can come in dead and go out alive, you can come in blind and go out

seeing, friends. You can come in bound and in bondage and you can go out free, no longer captive, that's what is accessible to us.

Faith, you hear it, you recognize it and you go acting upon it. Lets just sing that little song *reach out and touch the Lord* as he goes by and you will find this morning that he's not too busy to hear your cry. He is passing right here this morning in Abel country right here in Longdenville right in this low place in this little valley here on planet earth. Think about it, this small little insignificant place that some people don't even know. You can stand up on the hill right there and can't even know what is down here and that's just a few feet away because the contour of the land, its hidden down here you can come right up the hill and drive back out not knowing there is something here but yet God knows right here, yet there is a people come and gather in this little spot here and in their heart they look to him amen, and there is a word among us that's God's word that has made God's plan to us and through that plan God can give to us all that we have need of.

He's not too busy. He's not too busy this morning, he takes time, he comes down with tender hands for a people who is yet purchased.

Reach out.....(Lets just sing).. and touch the Lord, with faith in your heart you have a special need in your heart, you don't have to carry that burden all through the service, right now is the time to lay it down.

*Reach out and touch the Lord
As he goes by
Touching Jesus is all that matters
And your life will never be the same
There is only one way to touch him
Just believe when you call on his name*

There's a great thing that the church of the living God can do just unite and believe because if two shall agree upon touching anything it shall be done and isn't that why we are gathered here as the church of the living God. Not just a scattered individuals but as a local assembly, a body of believers that God has brought together by his Holy Spirit who is abiding in his revealed truth and she becomes an outlet through which the divine blessing can flow

through everyone because he's the vine and we are the branches. Lets just believe him with all our hearts, you have a special request in your heart around the building, in the rooms, on the outside wherever you might be positioned right where you are lets just unite our hearts, our faith believing. I have two requests here both are at home Bro. Jerome Mc Millan requesting prayer for a pinched nerve in his neck and he would really have to be at home because that would be painful for him not able to move around much, otherwise a fella like Bro. Jerome would sure be right here Sis. Ashley Philip requesting prayer for an attack of fits yesterday and another attack this morning. God knows what those young girls have to face then to have this come upon them. Lets have faith to believe for our sister, one who came out of the Junior Secondary Schools and baptized. The brother going there preaching the word and she came in the assembly.

Lord Jesus, what a mighty God we serve you may know our circumstance you may have things oh God that make us feel depressed at times discouraged but dear God we look to you who is the all sufficient. You who have already conquered all things of both worlds, seen and unseen but because you have overcome and made your lives available to us you said we too shall overcome and here it was in this great overcoming time, like it was for Israel who was delivered out of Egypt and brought into Canaan. The dispensation of Canaan when they had to fight for every inch of ground but you were present to lead them into the possession, into all that you have given and even though you have made it available to them and brought them to it, yet Lord your presence was right there in their midst.

You have come their very captain to lead them into the possession into that which you have given and so dear God we know that every redemptive blessing is ours and how we need you to lead us to posses each portion that we have need of and that which you have given and bringing us into your leadership that it might become our personal possession not just to say we have it by promise but we can live in the enjoyment of the blessings of it because dear God you have shown us how to fight and take it. So we stand here as believers knowing that every place that our feet thread upon that you have given unto us, I pray that the faith that you deposited in the hearts of your believing children God will be

released now, Father, knowing that if two shall agree upon touching it shall be done.

We bring Brother Jerome before you with that pinched nerve and God we know that in the bible you sent the word and you healed them, like that Roman centurion he came there and he stood on behalf of your servant he said that I also am an authority and God as he approached you and expressed his faith, you marveled and said that I have not found such a great faith not in all Israel because the man understood the gospel by position and authority. He said you don't even have to come and touch him you can stay right where you are and speak the word.

God how we want to stand just like that this morning on behalf of these who are not here but we are here and we are representing them with this request before you and knowing that they would be looking at the time no doubt and know that at this time prayer would be offered for these request because they know we are gathered here Father and that's why they sent it let your great Holy Spirit, the angel of God go to Brother Jerome at this time Father and God may you touch him, may you free him from that condition, that nerve oh God that is pinched, may you free him oh God the distress the discomfort that it is causing him, may he be free from it now, may his condition be restored to his normal state Father in the name of the Jesus Christ the church of the living God ask for this little simple request for our brother and that he be well for the glory of God that when his family will go home they may find him well Father like it was in the bible in the name of Jesus Christ.

Lord our Sister Ashley two attacks of fits last night and this morning Lord we know that's demon power, that's evil spirits trying to get a hold of our sister's body. God they have not got a hold of her mind because in her sanity with her faith she have sent this request that the church of the living God would join together with her and believe for this deliverance and I prayer in the name of Jesus Christ together with these believers standing here this morning holding up our little sister before you and knowing dear God how much they have already suffered and the conditions they are living under and I ask dear God in the name of Jesus Christ break the power and hold of these demon power and may you set her free Father. The church of the living God ask for it today let

your word go forth like a guided missile and enforce such a rightful condition of restoration and cause that devil to loose that grip around her life. May she be delivered and free from this condition and never have another attack of this. We the church of the living God call for it asking with faith believing in the name of Jesus Christ knowing that you said that if you ask for a bread you would not get a stone, if we ask for a fish we would not get a serpent so we ask for her complete deliverance in the name of Jesus Christ.

And all these that would stand here in your presence under the sound of this voice and even them oh God who would hear this message oh God knowing that it goes out in the islands and the people join right in. God it is the very service that this prayer would not be for today alone, knowing that you are not the God of one day but you are the God of past present and future and when this service become past this prayer can still be present because we prayer to you with faith. The great eternal God I am that I am. That even them who would hear it afterwards Father having needs and believing in the pray that is being prayed would also receive the benefits. Dear God that even those standing here now and those that would hear after in the name of Jesus Christ, the mighty conqueror, the source of our victory, the source of all our blessings, the giver of every good and perfect gift. May it be settled dear God that they would received what they would have need of in the name of Jesus Christ. Grant it Father, let faith be inspired and let faith take a grip and may faith be drawn from you the inexhaustible fountain, that blessing that your children have need of we thank you father as we wait upon you that you would speak to our hearts. You would lead us and guide us into the paths of service.

Bless all your children that are gathered out our brothers out in St. Lucia, our brother our in Tobago, may your Holy Spirit the great Sheppard of the sheep, God the one who send others Lord because you committed man to preach the gospel but the man himself is nothing Father that could meet the needs of your people but it is you who said I am the vine and you are the branches. It is you who flow through your people to meet those needs and I prayer the very intelligence of the Holy Spirit would be upon them and God the gift would be out of the way and you would inspire

them to yield and make themselves available to you that Lord you can work in and through them to impart the blessing that you have intended to give to your children. Supply their needs and even those dear God by hearing the tape oh God Father may you bring them in your heart and mind, in the channel of your Holy Spirit not only hearing a tape but your presence be amongst them that faith would rise and prayers be offered by different ones right in the midst of others. The mind of the spirit be so present and that they would have the leadership and the direction God that you can minister through the members of the body that what so ever need that is there those needs would be met.

May you grant it Father we commit all things into your hands, lead and direct us for we believe and prayer asking those things in Jesus precious name amen? Amen, praise his mighty name.

Lets just turn to our bibles, like to invite your attention to the book of Revelation chapter 3, chapter 18. Revelation 3 we read from verse 15.

I know thy work that thou art neither cold nor hot

And this is the message to the last church age, the church of the Laodicean God directing his message through the messenger of that church straight to that church and God is speaking to the church about their condition.

I know thy works that thou art neither cold nor hot I werr thou were cold or hot because thou art lukewarm and neither cold or hot I would spew thee out of thy mouth

God is saying I can handle you if you are cold because if you are cold it shows you have refused me. You have not received my word. If you are hot and you're on fire then that's the condition I want you to be in but if you're lukewarm you're neither hot nor cold, then you're trying to live between two desires. You have just a religious outward profession and God says that is what he can't tolerate he said

I werr if you were cold or hot but because thou art lukewarm neither cold nor hot I will spew thee out of my mouth

In other words it make him sick to his stomach, God became so nauseated with the church and its condition this is something to

grasp because it gets in God's feelings who the church what was in his thoughts, what he intended it to be who came and died and made everything available so he can dwell in his church and live and through his church and show his glory and power through his church but his church refuses him, the place he desires in his church and his church becomes another instrument for something else and that's why God says, "I will not go along with you in that condition, think I would mind going along with you if you want to improve and progress but because you make that mistake I have to part with you. I and you can't walk together we are not in agreement."

People don't realize that. People sometimes because of the concept they have of God they don't realize that God does bear so much and then God depart. Now that's this age, its this last age that's the condition of the world today not what will be but that's what God reject the church world for and since its rejection that's what it become a monstrosity. You're seeing that's why it have famine for the hearing of the true word because it is dead there is no true word, there is no true life. It becomes a broken cistern because why they have forsaken the fountain of living water, its full of pollution and corruption and anything that don't give God his place becomes that and any person, any individual that does that because God made you up for a purpose. Know you not that you are the temple of God.

God made the church for a purpose God made us up for a purpose God made this world for a purpose.

Because thou sayest

Not God is saying but the church is saying and this is what we are talking about here: concept, people's concept.

*I'm rich and increase with goods and have need
of nothing*

This is how they saw themselves, no need I'm okay they look at their wealth, they look at their prosperity and it give them peace. They didn't look at their condition and what God requires they look at their possessions and here is God speaking back now.

Thou knowest and know it not

He says you're talking but you are not talking conscious because if you know your condition you couldn't say that and God is showing what they are ignorant of which is their very state.

*and knowest not that thou art wretched and
miserable and poor and blind and naked*

God say they don't know that's the condition. How could a man be blind and don't know that he's blind? How could a man be naked a woman be naked and don't know that they are naked? That have to be insanity right there is a prophecy of the insanity of the world in the last days because in the very garden in Eden, Genesis 2:25, Adam and Eve was naked and didn't know it. Revelation 3:17 the church world in the last days was naked and don't know it they are being deformed in the very same condition that is a prophecy. Revelation is a prophecy in the last days.

*I counsel thee to buy of me gold tried in the fire
that thou be rich and white raiment that thou may
be clothed and that the shame of thy nakedness do
not appear and anoint thine eyes with eye salve that
thou mayest see many that I love I rebuke and
chasten be zealous and repent behold I stand at the
door and knock if any man hears my voice and open
the door I would come in to him and sup with him
and he with me to him that overcometh will I grant
to sit with me in my throne even as I also overcame
and have sit down with his Father in his throne he
that have an ear let him hear what the spirit saith
onto the churches.*

May the Lord bless the reading of the word you may have you seats.

I want to continue to on what I have been speaking on the last two services, I've just been reading scriptures I would like to a little bit move on from there and not too hurry in the sense to just move on if I take too long on one aspect then after a while I would always have to be recapping to get you focus as to what I've been trying to speak to you and that seeing that my way of speaking is not to sermonize you but trying to bring you of the awaking of the time we are living in to have the church posted.

Sometimes it takes a few messages to break into something like Brother Braham says like that time he was preaching on Job and that woman says when would you get Job off this ash heap man and because he was trying to break into a place there he start to preach on Abraham and going up Mt. Mariah to offer up Isaac and

he say you might be thinking when I'm going to get to Mt Moriah because he had Abraham in journey to get him up there.

Sometimes you know when the Holy Spirit would impress your heart with certain things you have come to the place you would like to deliver that inspiration that God give you and old years night I start to speak on the **Conspirators And Their Conspiracy** and trying to use that because I felt that that is what I want to speak old years because the couple of weeks leading to that the way the Holy Spirit had dealt with me I wanted to impress that upon the consciousness of the people to know and to see the organized world that we live in, the cosmos what it has become. What it is because more and more you are preaching these things. When I look back on preaching these things I feel like I'm repeating myself then at the same time reputation is good.

You know you have people coming in, they are grasping and then those who are hearing it, it have a kind of hearing intellectually and them you being I've heard but now I see. You kind of come into the place of revelation and when you get there your behavior changes because it is no longer, I'm hearing that, I'm hearing that yes, until I can even repeat that but then now it start to change you because like I was giving this little illustration on this Christmas thing. There was something in me I just could do it, brother I went through there not trying to get something there to even drink or even eat, that could frustrate people around you sometimes its a good thing the family was in Tobago because if they wanted to do something they could have do something but me I go there I didn't want to get near that place and I was seeing how you had them to watch your behavior around things. To see the spirit in you because sometimes you need to know the kind of spirit in you, if you have to do certain things and to do certain things you have to have the mind for it you know its not like you are trying to make up your mind to do it but you have to get the mind to do certain things.

In other words when the prophet was coming with this message reading that and seeing his place in the bible and knowing that this is the Laodicean age he know right away that this message is going to be rejected. It is not easy to preach all them years of ministry knowing your message is going to be rejected in the end and you start knowing it is going to be rejected coming by vision, this is not

your tabernacle, showing how the people was loading the bread in the tabernacle when he dedicated the church put it in the corner stone, the time will come they will not endure sound doctrine they will have itching ears, they would turn to fables and all these things he knows what was coming and especially since the world has change since 2001 the 11th of September and that was a turning point just like we had the post World War 1. Now many people we read and we grow up and we don't read history and we live just in the present and that's why people don't understand the present because they don't understand what the past was like. For instance, today if you don't sit down and look and see how people use to dress long ago your grandmother and great grandmother then you would just look at the present world and figure this is the world. You would not know womanhood has fallen and there would not be something to say why can't I do that. Why can't I go back to what it was? Why can't I be a woman in this age if I'm born to walk in this? I'm born to come back to what womanhood used to be. If the church looked at the church today and the church don't look at what it was at Pentecost then they would accept services the way it was projected on TV. The way organizations are doing it and what looks to be successful but anybody who wants to walk with God they would not be looking at what is today, they would want to see what it was in its origin and anybody that is looking to go in the rapture you can only get faith to go in the rapture if you know what the real world was, to see and understand what this real world is otherwise you have no desire to leave this world.

Now you can't go to that place if you don't love there, if you are not living for that place you can't go there, intellectually you can say election and I'm elected and so and so. Election has calling with it and calling do has justification with it and justification has sanctification with it and sanctification has new birth with it. You understand what I'm saying? And when you get new birth you're a citizen of another country you have no desire to go back into the country from which you came out. You confess that you are a pilgrim and a stranger looking for a city whose builder and maker is God. Now that is not the length of a service desire, that's a consciousness because when Abraham came up out of the land of the Chaldees he was journeying day and night, all

them years looking for that place and never settle down and never went back and they died not having received the promise but it was so strong in them that there is such a place, the cosmos lost its grip and influence upon them. Now to tell you the honest truth that is what I've been looking for. When you meet a life that claim they believe God you are looking for a life where you talk to that person you start to understand their values, their values aren't hid. You know you can talk to people for years and you don't know their real values. You know what they would do on that and what they will do about that and sometime you think they will do this on that and then you realize they talk that but they ain't walking that and when there is a price to pay for something you realize they are bankrupt.

They don't have faith to do that, so they're talking they have a desire for that but that person ain't come from desire to revelation because revelation does let you know that is there and I am here and I belong here I have to find a way to come out of here and get there and its going to cost me something. In other words Noah didn't just say I'm going to come out of the old world and go into the new world. No! I have to build an ark and that ark have to be finished at a certain time and that ark was a sacrifice and he build that ark under persecution and mockers and scoffers and he had to be perseverant and not loose sight of the objective because perseverant: is persistent in achieving a goal and you only have a goal fixed before you when something is revealed to you, that become priority and everything in your life work for the achievement for that one thing.

Now that's what the rapture is, the rapture is not shout voice and trump you know people does come back and say the rapture means shout voice and trump. I know what the rapture is that means shout, voice and trump. The shout is the message, the voice is the bride, the trump is the resurrection that's the rapture. That's a religious definition. That's a religious definition the rapture is a man who rut and die and come into a new birth and them fight and grow up to become the word and then is tested and tried and then have holds in his life, the keys to immortality and brother walk with God daily believing that in the age he's living in, overcoming the world. That's what the rapture is, that's why he says rapturing condition, when the church comes into rapturing condition and

seven thunders will show you how to prepare for rapturing faith. You see rapture have rapturing condition and rapturing faith then you get rapturing grace. You get faith for rapturing grace to go to release you because remember the chains that holds you to this world is invisible chains, nobody is chained with a physical chain to the world, its chains in the mind the way you look and see it.

Its chains in the desires of your heart, these are the things that connect you. That's why they are trying to get Lot's wife out but they can't get she out, she couldn't make it out. She hears about it, she sees the angels, she sees the family going but she can't move into it. She's right there prayed for by a prophet to and it have them angels down their she effect the release; nothing can't come here except you get out of here quickly. No judgment can come on this place except you have to move now why? It had a time element with it and she couldn't move, she turned into a pillar of salt and Jesus come and say remember Lot's wife when it comes back to this hour.

In other words that world was done judged and condemned but she was still living with desire because the glamour of it paralyzed her faith and she don't have no discernment to see look what this place deteriorated into and she's still seeing things in that world she can get engulfed in and not seeing the kind of homosexuality, the morals is rotten, the politics is rotten the whole thing is corrupt, it's ungodly it's filthy because God on the other side is saying the sins of Sodom, it has come up to heaven; a cry, I've come down to see what is going on. And from the time he sat down there and them two messengers went and getting ready to leave Abraham see, them feet turned to brass them eyes like two flames of fire and Abraham thrown himself in the gap, he begins to beg and plead God for Lot. The bible says and God remembered Abraham and brought Lot out.

You see even though Lot is elected, elected have to do with others in shape and condition who understand and have revelation to effect that. Elected means you can't come out on your own, you're elected but you're not in condition sufficient, you're savable but you're not in condition that your own save-ability could get you out. That's why in the bible it does give you things like commandment and little doctrine and things and a next place the bible shows you a picture so to make sure you understand it

right because how you are understanding the doctrine. How you are applying it? Here's an elected man, here is a just man the just soul of the man but watch how this deliverance is coming because the Lord knoweth how to deliver the godly from temptation.

Now that's a key the Lord knows how to deliver and then you now have to watch how the Lord delivers when you're lining up for deliverance and you set a time. You have to watch how the Lord delivered in time past, how the Lord is going to deliver in the present because he's the same yesterday today and forever. His first way is his only way, there is only one way provided by God for everything, so to go back to Eden there must be a desire to leave this world. There must be a desire for something and that's why there is a spirit in this age for religion that people don't look at themselves deep enough.

Like sometimes I say I preach hard, I don't preach hard friends I try to preach truthful. Hard is a wrong expression I don't preach hard. That is a hard man he preach hard, no, the age get soft. The age get soft and so the age get conform to religious standards, that's why they tell Bro Branham you will ruin your ministry. He wasn't un-christianizing the people he was trying to wake up the people to look deeper because he saw this age is to have a form of godliness but deny the power. In this age is neither to be hot nor cold but to be in church, so you're watching where you are but you are not watching what you are. So you say I in church, I in church clothes but is your heart on fire for God, you hungering and thirsting, you pressing, you fighting, you overcoming or are you part of the programme. That is the deception and the deceivableness is when a man can't preach there because what deceiving the people? Church. Is church that is doing the deceiving and why is the world in the condition that it is in because the pulpit weak. What is the standard that God has set in every age? When the enemy comes like a flood.... the word, it is the word God does send. It's preachers God does raise up. You get what I'm saying? Every time you see a place get dark and deteriorate... Why did Jezebel darken the land with darkness? She knew what to do, kill the prophets, she knew what will happen when you kill the prophets. They are the light bearers, them is the lamp God lit and put on a lamp stand to give light by from the time she did that the whole place... When Joshephat came into power

what did the bible say that in Israel there was no teaching priest and because it didn't have no teaching priest.... not that it didn't have no religion you know not that it didn't have a bunch of teachers you know not that it didn't have a bunch of seminary you know what is the problem with the world today there is hardly teaching priest. Why, because the church has conformed the people into a different kind of specie, a different kind of Christian, a hybrid Christian they have to have so much of the world. What is a thinking man filter? To let some of the nicotine come in, to let so much of the world come in to satisfy their worldly taste while they gone in their religion.

Now this is where the discernment of the bride have to keep you looking at yourself where you examine yourself daily because this is the kind of age there have never been a more deceiving age than this age now. What I'm trying to teach here I does be preaching and saying it and am still trying to find the way to tell you that this was revealed by God to a prophet and this was not going to be made known and the church was going to end up in that condition. The opening of the word by the prophet shows us what kind of world the world has become you see we does say the world, the world but not age. Back in the church age had a world like it is today, this is not that same world back in the arena they give their life for God. Today they make them feel that they are a Christian when they are not a Christian. It is a more deceiving age, far beyond them ages back in the first age.

He says the anti-Christ went forth in its infancy, white innocent going forth to conquer and to conquer and now going forth in the framework of the message, now we have the whole world kings and merchants and everything else controlling religion, controlling politics, controlling economics, controlling the military, controlling everything in the world. How did the anti-Christ get that? Did he win the lottery? No by a scheme deceiving the church, by deceiving the church. How did he deceive them? He get them to organize, organize that was the thing. You understand that was the thing? When they organize they died, to remain un-organize is to remain spirit led, to remain spirit led is to go back to the lamb. He says, "What do you mean?" Well God don't have to move every day but church have to move every day. Church is a business. That's why man has to get things to keep people busy all

the time. You think Elijah was having services Wednesday Thursday and Friday and so on. No friends hear the prophet three four months sometimes he's out in the woods. He was in the tabernacle to help the church because it was an infancy church but the man with the word where he was? He says God give me a vision to go and hunt go and relax my mind a little bit get away from all these programmes and people and thing to get the word.

You don't understand the pressure it is when you get systematic and you get systemized and you have a lot of people who become part of the woodwork become part of the system and they want to hear when is the next programme they want the next instruction to do something he say look at me here I'm just laying on the job. I'm not doing nothing look at me here he say what am I doing back in the desert here he say God brought me to walk back in them same places because I was coming out of that inspiration. I have to go back in to get a little deeper in it because it have something there that I didn't get fully.

A spirit led life is not an easy life friends and in this age as the pressure comes on, you could hardly keep your mind together.

Sometimes in speaking so I make myself misunderstood by a lot of people but if you are on the front line and you're contending for the faith.

In other words you coming along the church now, for instance here a lot of people does come along the church we already know where you are living, where you working and you come to church so you have the problem solved, for me I have to find the next step. The next step is important to me I have to understand what is going on in the world because I ain't here to have a church. I have to try and tell the people time to drop of that, start to pick up this, start to do this now. You see that weather there that means we have two more hours, I have to start to get the next place, that's hard for me because preaching for me I just can't come, you know I'm looking for the next step always.

How did he find them messenger in them ages the ones who was taking the church forward? It is easy to stand up and reiterate but the thing is when you reach the horse and buggy we have to go beyond there. Who get the thought of a motorcar and how to make that? When you have a motorcar and you realize this can't meet the need no more, we out grow that. Is something going up in the

air on the water? Where are we going from here? And someone have to find the key to unlock that, to move that motorcar into an aero-plane. Now that is what men was catching and that is what brought a change in the earth because there can be no change with real revealed truth. You get what I'm saying?

Without revealed truth there can be no change. What did the message do in this age? Turn a corner for four hundred years it is the same thing come to church Luther Wesley Pentecost same thing but here comes a man when that man comes it was a different kind of church man with a different kind of preaching. It bring on birth pains on an age shake the system and pulled an elected out. It looked deceiving because what it pull out was so little. It was so little that it looked defeated it was misunderstood. It looked like a wild man came and create all this damage look what he ended up with, two three people in a house in Trinidad and you call that church and bride but forty years after where the man never even come and some of the man's books end up in the country. Look what is going on here?

You see you have to get in a place to think, don't just come to church, I'm not here trying to doctriate you in a doctrine I want to bring an awakening because seven thunders wakes up the bride. Buy of me eye-salves that you see your eyes become open because at evening time, what happen he broke the bread and their eyes get open. There are three openings there in Luke 24, he opened the scriptures, he opened their understanding and their eyes were opened.

It's an opening time it is a time of revelation at evening time when the son of man comes. When the mighty angel comes down in the morning part but the evening part all them great thing busted the seals. Angel coming out that was to show what day it was, the Sunday that was to show he's risen but evening time was getting the church ready for the promise. It was getting the church ready for what the ministry had made available. That's where as believers we have to keep that focus and I want you to follow me because there is something here I want to bring out of this for you to understand a little more clearly because it is some things that is happening and it is so necessary that we catch it right, okay.

Now the seven church ages from Revelation 3 *behold I stand at the door and knock and any man hear my voice I will come and will sup with him* You are with me he say listen it is not a personal message to one person he say *this behold I stand at the door and knock and any man hears my voice.* He says this is not a personal message to one person it is the spirit telling us where Jesus is Christ has left the church. *behold I stand at the door and knock.* He is outside the church he says it is the spirit telling us where Christ is. That's a revelation now follow me the things I'm on is preaching about this realization of this insane age it's a realization of an age that is here, that has not been here all along and there is a way that that age has come on and we have found ourselves in a world that has changed around us and the only way of getting out of it now is by supernatural means. You understanding me? We have found ourselves in a world that has changed and I want to show you that the world has changed around us, it has become the cage and the only way to get out of here is by supernatural means. That's why he send angel to pick you up it takes your body to change to get out of here or if you have to stay in here there is no way you can continue on here, that God have to move us out of here and that's why all these things are timed. When I say it's timed, when the world come in that condition its time for the bride to go. When the world come back like Sodom, when the world come back like in the days of Noah, God had to make preparation by sending a prophet to get us out. That coming of the prophet is just to bring truth, that is truth designed to wake you up and get you out of here, that's why we have received a more sure word of prophecy which we do take heed as onto a light that shineth in a dark place until the day dawn and the day star arise in your heart.

So here is a people in this dark age receive this light and is walking and that light is unfolding into a perfect day because that light comes at the darkest hour, the morning star shine brightest Jesus Christ says "I'm the morning star." That title could not be used and have no real significance until this age, this is the age of the morning star, this is the age when the new age is breaking, this is the age when we go back to Eden, this is the age when the black out has come, this is the where it is so dark hell is here its an insane age around us. It's a cage the world has come to. How did it get there and how is it being done? By the world council of

churches the ones who was suppose to be bringing the word to get the people out of it, is the ones who use the system to cage up the people in what is the spirit of denomination.

What Paul bring the Corinthians church for? He says you have the vision I'm Paul and must suffer. You know what that spirit is? Don't go by them, we don't believe like them, don't do this, the spirit of man now start to control people nicolationism conquering people. When you get that nicolitionism over a thousand systems, what does that do? Conquer the world because everybody who get under that system have conquered people in it. That's why you hear me preaching in the attitude and the manner sometimes and it look like I'm belittling here and tearing here down because I don't want your faith stand in the wisdom of man.

I don't want your faith stand in no system, I don't want you to get no security inside this church, I want to show you inside this church there is a word going out and that word is Jesus Christ. That is the only thing I know is Jesus Christ, that word going out when that word find a world to live in it is going to produce Jesus Christ. You understand what I'm saying? That's God's system now watch its nice to know we have a nice group and nice system that's find we are not underestimating that but we are not overestimating that neither. You understand what I'm saying?

You can overestimate that and you start to get confidence in the flesh and you start to get security in a system but the thing is this is not the age to bring these thing permanent here but the message didn't come for that, the message came to take us out of here the message come to root us up. It's a rescue to deliver us from this present evil age. That the scripture we have being laboring with in the last couple of services.

Now look so the spirit is telling us where Jesus is Christ had left the church, it is not the logical reason or the end if the word is put aside for creed. The Holy Spirit disposed for Pope. Now is this not the logical result and end if the word is put aside for creed, the Holy Spirit disposed for Popes, Bishop Presidents Councilors and the savior set aside for a works programme, church joining or some type of conformity to a church system. What more can be done against him? Now you see that's why you are looking for growth once you settle no no we're not so, we are not so, that's how the church started, Pentecostals church say they're so you know no no

we're not Methodist or Baptist we're not no we are the move of the God, the present move of God but they become the same thing because there was no moving on. In other words you don't sit down there and say I believe Brother Braham, I believe this, I believe that that's in the message until Jesus comes and you ain't moving on. You have to be moving on everyday, everyday you have to be growing up it is unto faith unto faith, unto faith, its being change unto glory, unto glory, unto glory so if this revelation ain't increased it have no ripening of the seed. The sunlight getting stronger and stronger is what does ripen the fruit on the tree. That does bring harvest time if the little light in March does bring springtime when the sun comes back around to melt of the snow and the sun coming around, that can't ripen the grain. That now starting the life but as the tree growing and maturing the light getting stronger and stronger because it is that light that cause it to grow and mature and that's why God had to bring a greater revelation that Luther had and Wesley come with something greater and the Pentecostal come with something greater today.

God have to bring back the word in its fullness because when we started of in the message we couldn't preach the seven seals. When we started of in the message you seeing water baptism, you beating Baptist with bell, you talking about denomination, a dress and hair message and that is what it was. They had to lay aside some of those things and go on to perfection if the church have to move. In other words we were woman bashing which most of it used to be and people use to jump up and feel secure in that but then you have to come to a place to know this God, to follow this God to hear the voice of this God, to be led by this same God to see this God empower in you, to see this God bring you from strength to strength, to see you coming to a place now where your revelation strengthening others around you and birthing people into the place where you are. Before you couldn't birth nobody, you tell them about something and you give them a book to read afterwards your confidence would tell them that God send a prophet because you couldn't tell them about the God in you because you aren't sure it have God in you yet. Ninety percent of the time you preaching God sent a prophet because until you know God come in you and that same God, you better point them to something that's right, whether its history self, it would still be

right fundamentally but for them to know where they are at and what is going on that God have to start to move.

That's why they say the letter killeth but the spirit giveth life that's why it can't be word word word, it had to be spirit, present tense, quickening, revealing, blessing, lifting up, delivering, empowering, reviving that's the spirit in operation that's not just teaching now that's the spirit. That's the Holy Spirit among the people where two or three are gathered there I am among the midst. When He the spirit of truth is come he will lead you and guide you into all truth, he will bring back things into remembrance. That's the operation of the spirit.

That's why them organization deteriorate to where it is because it come down Jesus saves, tonight Jesus saves, tomorrow Jesus saves, the next day and the church getting worst and they keep saying Jesus saves until afterwards it is a way to get rich. God loves a cheerful giver, God love a cheerful giver and then they go down that road day and night, day and night and the church getting worst and worst right before them. Why? The spirit has gone they get left behind with little articles of confessions of what they believe. You don't want to be left behind with little articles of your confession, no you want such as I have give I unto you because what he says in John 14:20 is what? In that day you will know as I was in the father and the Father so will what I in you and you in me friends and that should stimulate the desire to say God you showing me it have more to go. You showing me I can't be in this church that look so good and settle down here, you're showing me I could be in this pew and be lost and dead. You get what I'm saying?

You know why this seed could produce after the prophet died more than before because that's exactly how he preached it because even when man thought he was history while he was here, this man was crazy and he would ruin his ministry. It had seed that was pure and original and just the way it was, it had people that start to get birth from that because he left the pure word and though he was dis-fellowship and put aside ostersized and they killed the effect of his ministry yet that was the word, the pure word. What made him preach **God's Word Being Misunderstood** they was misunderstanding the spirit working in him because Oral Roberts had a nice spirit that God loves

everybody and they were playing up that God loves everybody to make him look bad because he was preaching judgment and he's saying what hour are we living in.

He says is this the hour to build million dollar building or to have all these crusades and all these things or is it judgment. He says what hour it is when the seven seals open. What hour it is when the moon black out? What hour it is when the sun refuse to shine? What hour it is when the stars are falling Baptist, Methodist and Pentecostals? What hour it is? Stars, angels falling can't keep their first estate. What hour it is when Israel rush back in their homeland and they are a generation. What hour it is when the church in Laodica and the world in Sodom? What hour it is when all nature taking a tumble? What hour it is? See? You see the hour we have come to as a church?

This don't get you frighten it give you purpose now, this does get you talking to yourself, you see you, you have to stop your foolishness, you have to put more discipline in your life, you have to start to line up, you have to have deeper conviction. You see that thing you're playing around with you have to stop that. You see that thing you getting close to you have to separate from that, you see this kind of thing where you're fooling people and pretending you have to get that of your system. That's what this does do but if that don't get there then you come like the woman that come out of the service Brother Braham you ain't touch me today at all glory to God. He didn't preach on gossip he preached on everything else except gossip, like you ain't touch me today at all. See?

So she felt good in the service she didn't get touched. When you have gospel that ain't touching every part of your life you have the wrong gospel because the real gospel is washing of the water by the word. To get a bride dressed and ready for the marriage of the lamb, this is not un-Christianizing this is saying you could be a marshmallow in this hour. This is saying you could be loose and overcome, this is saying you could be weak and have the devil to confront with everyday, this is to take a stand against sin and you don't have conviction.

How could you take a stand without having conviction that's a carnival stand, that's rubber talk, you're practicing your rubber talk for carnival. You get what I'm saying? This ain't practicing

rubber talk for carnival friends you have to mean what you say in your heart and this ain't you have close brother and they're nice; you say you are my brother I love you you know, you see what you are doing there that foolishness I can't stand that. You can't come around here with that, it is a cause we are standing here for. What kind of spirit you have there you will sell out this. This is not about me this is about Jesus Christ. You have to stand better than that around here. When you don't have that kind of thing inside and you have Revelation 3:15 you know what you does do. You don't want that kind of friend, you're looking for a new friend because he criticize you because he come down on you, so you walk away for a next friend. You don't want any one who does tell you your faults that is what he thought. That's the church spirit because you don't have the conscious to see the man is standing for the word and the love for the church, to see the church in the condition it need to be in to carry out and finish this commission and you thinking that man against you and the man is seeing you is just an agent for a virus to infect other people and he tell you, you have to get quarantine a little bit and get inoculated because what you are carrying could infect people and weaken the body.

When you get a virus and you run in the pharmacy what you running for because you know you have thing in your body that could infect the whole body. It start of with a sore throat afterwards you start to feel coldness in the joint after is your foot and your belly start to give you problems, afterwards it is all kind of headache in your head. Is no longer the throat now all the other members of the body start to get under the effect of the thing. You thing preaching about the body is only for the other side apostles and prophets and teachers and evangelist is that the only mystery of the body no a little leaven does leaven the whole lump and that we might become one bread and one body and a new lump because that old lump have to be purged out why? To be in the condition to fulfill what we are called for.

Now I want to move on quickly, now I want to bring to you to see how the world has changed around us. The world that I was growing up in as a little boy is not that world today. The world that God deliver me out of didn't even evolved to this stage yet because some of we when we talk about we past pitching marble, playing buggy in the road, making zwill and get some old board

with an old bearing and a skater going down the hill we talking that kind of thing, slinging shot and we shooting birds in the bush. The children here don't know that world, they know that world is video game and this and that and computer and it's a next world for them.

Boy the only lady we see is who toting water on she head walking down the road or some body sitting on the side of the road. In this world it have 280M phonographic sites on the internet. In this world whe-whe normal they talk it open in my day, Brother Sammy influence me to play whe-whe. We get down in the cane field and the man come down with this thing to burst the mark and one set of us in this cane field and a man come out from no where down in the back of Corinth, all of a sudden someone bawl police! Brother is sometimes men coming to sabotage and take the money the whe-whe banker he get scared. Now you get a nice ticket and you stand up in queue in the mall it is the same old thing but look what the devil do with it. He made it glorified and make it refined and even the man feel cultured about it that he can sit down in a suit in air conditioned office and say what you play, well I dream old woman you know he say I dream dog, a dog rush me boy let we play the two old woman and dog. See it changed around them and in this age this was a revelation to come.

Where is Jesus Christ going to come? Not in the churches. This is the point I'm trying to bring to you I want to show you how the age become an evil age when He is outside the church. If they put him out and they didn't receive his truth what He promise in this hour could that church remain a sanctified church. When an unclean spirit leave it walks in dry places if when it comes back it finds a house swept and garnish looking nice what does it do? Go and get seven other devils worst and when it comes beat against that house why, because the house wasn't filled up.

Person get deliver boy I don't have that thing again, that thing leave me praise God, glory. Hallelujah yeah you better get it filled up in between here because that devil coming back with seven worst and the state will not be the same as it was before. It will be a worst state. That is why Jesus says go and sin no more less a worst thing happen to you. Pharisee never used to preach that. You know why? They had an intellectual religion but Jesus was

dealing with two worlds and he was dealing with demon power and he was dealing with the unseen world and he was understanding how Satan set up his kingdom and he was understanding what does take a man to stand in a place where he have protection and if he move from that place where he have no protection.

And that why he try to teach man to know where you are standing, where are you at. Are you in the place where there is spiritual power to help you overcome that? It has things in this world you can't even deal with as the best trained human being. You can go and take how much course you want; total man and total woman and all this different kind of course they're taking on positive thinking, Alcoholic Anonymous and this one become a social worker and this one study psychology. You think rehabilitation centre will change the problems of this world.

No, the problem of this world is that they reject Jesus Christ it was prophecy thousands of years before but this is man's remedy. When Adam and Eve sinned what was the first thing that they do? Did they repent and called on God for help? They tried to remedy their own problem: both of we at least we were perfect a little while ago, we lost something here but don't fall apart be positive in that situation unity is important. Come think, what are we going to do here? They're trying to brain storm; we had a covering we lost a covering what does that mean. We need a covering. How are we going to solve this? Material, aah something that's not to transparent because God will see through it. We have to cover it because this expose state making we feel shame. He look around he says what you think of fig leaves says I was getting the same thought see we are in the same channel. Unity. You're starting to feel good about this he say yeah okay measurement. Adam was the first tailor Eve was the first seamstress they had the first unisex clothing, they opened the first garment industry and they made aprons to cover their nakedness.

What were they trying to do? Cover sin. Really cover sin. They were trying to deal with a sin question so they used clothes. Clothes weren't an invention for the weather, clothes didn't start of as fashion, clothes were man's attempt to cover his nakedness when he sinned. Clothes was man's ingenuity, all his wisdom, human wisdom at work trying to find a divine solution to a

problem, trying to solve something it takes a divine God to solve. And from the time God come down they run. I could imagine they're holding hand and say okay don't back down on me now, you standing for me, I standing for you. Come let we give it the best we got, you start and she says oh (Brother Vin laughs). You know the angel like that when he's coming down. Next thing you see the pillar of fire start to whirl down, you see a man start to walk out of that pillar of fire. From the time she sees them two feet step out she says it look brassy. Run for your life, it looks brassy. You know brass means judgment.

They take off. God have to go in evangelism now, God have to hunt the lost. A religious man who dressed up in clothes and a religious woman dressed up in clothes coming before God just as naked as can be trying to put on a show before God. Pretending, hoping God accept that and God say has thou eaten from the tree. He says yes. God says why you do this. I ran because I was naked. Naked? Who tell you you're naked. The bible says they were naked and didn't know it. What I read here: naked and didn't know it.

The church in the last days is naked today and don't know they are naked in Satan's Eden. In God's Eden they were so veil with a holy veil there was no no consciousness of that nakedness, they were in a civilization where there were innocence, they were veil with the Holy Spirit. He clothed them and they seeking knowledge wanting to see what sex was.

She went out there and she takes from the wrong tree and how did that start yea had God said you shall not surely die. Here is a preacher now mis-interrupting the original word because God said the day you eat you shall surely die. Here is a voice saying no no you shall n-o-t die, not a chapter, not a verse, one three letter word n-o-t cause every graveyard, every hospital, every famine, every war, every pestilence, every abortion, every criminal offence. One three-letter word brought all death and chaos. Jesus comes in the middle of the bible and says man shall not live by bread alone but by every word that proceed out of the mouth of God. At the end of the bible Revelation 22 he says if a man add one word or take away one word, not a chapter, one word all the plagues will be added or his name will be taken out of the book of life. In other words one word took the man out of the Garden of Eden how

could he get back in without it being every word. If one word was the difference of life and death, in God's kingdom they could not die they could not get sick, they could not get old, they could have no fear if that word wasn't broken because they was in a world without fear, without sin, without sickness, without death because from the very first word when God said let there be light all the way from a man and a woman clothed with the holy veil of the Holy Spirit, all of that came by God's word.

God alone was the one speaking speaking speaking speaking had nobody to interrupt or inject nothing and that perfect word brought forth a perfect Eden. To bring the world in this condition today Satan went at what the word first, he got the thing they had to live by the word. He didn't go at them first he went at the word first and he twisted the word just enough to make it sound like the same word but with an exclamation and watch then today. You tell them a woman not suppose to preach, "Well I don't think the bible means that." It states right there what does it means but it become popular today until people thinking with their mind it can't be wrong. Look at how they love God and the camera on them, look how that one crying and look at this other one here, look at how he jump out his seat, look at this one testifying they get heal so maybe it have to be right then the bible is wrong. Then the word of God is wrong then, it have a mistake in it see and that's what they have done friends and that's why you see your world changing, you see your life changing, you see sometimes you are getting weaker it means to say something is moving you out of your original place because death could not come if that woman had stayed in here place but that perverted word was to do what move her out of her place.

You see how powerful the lie is. The truth that came from God's mouth create a world that was perfect, the lie that come from that mouth changed the whole thing and bring hell here. It reverses the thing and what is a lie? The truth perverted to mis-place and mis-locate and mis-interrupt the truth has that kind of power. The word say a woman should dress this way and walk this way, a man says I don't think so I fine she look nice, you could just trim the ends you don't have to cut off everything aah ahh you don't start there already. He says well I think you in a pants you're real cover up nobody can't see nothing. You're working in a

construction site and you're out there if breeze blow up your dress you could get a problem with a pants you're safe. See? You see how it does come and God says it's an abomination but watch man's wisdom to change things around.

That's what we get, they change things around and say God hard boy that's God's word. They don't say my desire is perverted. They don't say that, they say God's word hard. In other words God keeping back something they like. No friends it is the desire of the person that's wrong not the word. If that word come in, that word would change that desire, that word would filter that thinking, that word will give a holy man's taste on the inside there and the affection will be set on things above not on things beneath. The word set the mind in order for holiness Father sanctify them by thy word, thy word is truth. He didn't say sanctify the word he says Father I sanctify myself for their sakes and Father sanctify them by thy word. The word is the sanctifier. What used to keep the priest clean? The laver with water. What was that? That was the washing of the water of the word. A priest had to be washed to go in the presence of God but what kind of laver it was? A gold laver? A glass laver? A brass laver because brass is judgment. That's right, you look in that water you see your reflection. You look in that brass it reflect you too and what defilement is there. That water can wash away all defilement, that's what the word is. The word is to show yourself and when you see yourself you see your defilement and that God is not against you, God is saying I want to bless you but I have to get this thing out of your life. I want to fill you but I have to get this thing out of your life. I want to walk there but this is hindering me I have to get this out.

You say but God you're making me a new man, you're making me just like you Jesus. He says that's the plan, you're getting it I'm making him just like me eh amen. That's what he's doing, this is the apostasy this is the falling away, this is the way to the anti-Christ with Christ on the outside of the church, Christ was the apostasy Christ had left the church it was prophesy in the last days that Jesus was going to be on the outside of the church and we've waited for seven church ages since God show John that in AD95 when he was on the island of Patmos and he saw what was going to happen.

For 2000 years we waited until this day when this message comes for that and when that started and they rejected the full word that come, the vindicated message, the leader of eternal life. The rich young ruler who was religious, rich and increase in goods had need of nothing kept the law, obey it down to the letter but do what? Reject the son of man, reject the vindicated word, ended up in hell and that's the age. After the turning down of this message, something begins to happen to the world as we know it.

They call it discovery in science, they call it advancement in technology but you see that demon power was bound and all those things from the tree of knowledge. He couldn't give it to them so because God had them eating from the tree of life but when they turned that word down, when they turned that word down, then they rejected the blood. Do you hear how they sing thank God for the blood the blood prevails oh wash me in the blood of the lamb. The bible says if you walk in the light, as he is in the light then the blood cleanses you from all sins.

The basis from cleansing is walking in the light. He says this is the condemnation that light is come but many choose darkness rather than light because their deeds are evil. What was the condemnation; I thought was drinking and smoking and committing adultery no no no the condemnation was rejecting light. What is light? Revealed truth. God says you are a man you're suppose to dress this way, your desire suppose to be this way, God say you're a woman you suppose to be this way, your role God say you're the church of the living God, you're suppose to be established on these principles to be a bible church, to be a Christian assembly the kind that God specify, that wise master builders lay the foundation and God give seed to plant the word to raise up a crop for him. Outside of that you become a man made organization like Cain built a altar and God say it wrong, do like your brother it wrong but he can't accept that. You get what I'm saying? They trying to find out in a forty day fast to come back and do the same thing, they don't need a forty day fast, they need somebody to show them in the bible; look the bible says so, you're off the word here; look the bible says you're off the word here; man shall not live by bread alone but by every word. You see that desire for that must come first. Cain did not have the desire for the truth. What did the bible say in the last days? Because they don't

have the love for the truth he'll give them a strong elusion to believe the lie and be dammed by it.

Who does listen to that kind of God? You hear that kind of God preaching on the TV? That kind of God winning the nation for Jesus go down Nelson Street and in Laventille and clean up the place with the police in anti-kidnapping thing. You could win it? These are the tares maturing friends, these are the tares maturing, he says the good sower sow the good seeds and the evil sower sow the evil seeds. Two different sower and two different seeds he says this is the children of the kingdom and this is the children of the devil, he says these here will be put in the fire and burnt with unquenchable fire Jesus told it. He says I'll put enmity between the woman's seed and the serpent's seed but the serpent's seed is religious and who are the architects of this world order? Serpent's seed. Who is building this civilization? Serpent seed? What is it? What does it glorify? The achievement of the serpent seed, this is not the kingdom, this is a perverted world designed by a perverted god, who is the god of this evil age Lucifer himself who says I'll be like God, for a perverted people and all perversion means something original was perverted because when God created Eden it had no perversion in there, had no perverted religion in there, had no perverted man in there, had no perverted woman in there the bible say God says it was good and it was very good. And God had a man reflecting God, God had a woman who was bone of the man's bone and flesh of the man's flesh reflecting the man's life and that was the mystery of Christ in the church and here was a kingdom with no death. That's how God set it up and if God.... Why did Jesus Christ die to bring that back? Then what are we in here today? How long have we here friends?

Something that start to happen to a people not only the world, when Christ was put out, there was a people who went beyond the camp bearing the reproach, there is some that refuse to stay in the system, that's why he says come out of her my people because Babylon had become the cage, that has become the cage. This has become the evil age and there is some people on the outside, those people who went beyond the camp, something start to happen to them too they start to get changed too; be you transformed. A transformation starts. Why? Because that Christ that they turn down begins to show us a new day, the morning star, shalom, the

breaking of a new day. He says we are going to a world where there is no grave on the hillside, there is no hospitals there, we are coming back to another kind of Eden.

The church had come through justification under Luther, sanctification under Wesley, under Pentecostal it get a birth, now the church is coming into adoption and then change, the whole creation is groaning and waiting.. For what? The manifestations of the Sons of God. The church in this hour is going to be a glorious church without spot and without wrinkle, so while the world is being deformed there is a little group that's being transformed and look where it has come from, our time in the world, we older ones to what the world is today, it has changed all around. Then also look what believers has become when we watch some of us what we used to be and we're here today, something happened to bring us from here to here. Something effect a release because I was trying to get out and I couldn't get out and then one day I was out. What a day was that! Now I begin to understand what brought me out, how I came out, now I begin to see the prophesy come out of her my people, now I begin to understand there is a mighty angel whose glory is like none on the earth. There was a voice that spoke 'house of hell give way' and all of that was laying there and I just had to move into it. I had to be moved into it, it was already spoken. How many know when God said let there be light after a time it starts to be manifested? How many know that when God says a virgin shall conceive though it take 700 years after that time it manifest. Well the same way he says there was going to be a people and when that word was spoken these things had to happen because that word wasn't a man trying to preach a sermon, that was the word coming out of the mouth of God.

He says back in Genesis he says let there be... let there be... then the people start to say Moses, Moses you speak, not God at Mt Sinai. God says from now on I'll speak to them by a prophet, surely the Lord thy God will do nothing until he reveal his secret to his prophet and then Isaiah raise up a virgin shall conceive. Look like nothing, look like a man talking, 712 years after a little girl growing up, down came the angel hail Mary blessed art thou among women and blessed are thy womb, behold thou shall conceive and bring forth a son, here was that saying. Isaiah saying and there shall be a voice of one crying in the wilderness,

712 years afterwards there was a child being born, coming to fulfill that very word. Why? It left Gods mouth and it shall not return unto him void. It looked like a man.

Look at Moses; the Lord thy God raised up a prophet like unto me, 1400 years afterwards here is a little baby being born coming the Messiah. God's prophet coming on the scene. It was more than a man the spirit of God in Genesis saying let there be was now speaking by human lips, foreordained office of a prophet then that same one who say and hell is being created here. That means by his word this is given over now and this generation shall never rise no more, brother they could have so much convention, man could say how much woman thou art loose. Brother you are seeing the insanity in the cage and everybody is having their own carnival inside the cage but nobody coming out of the cage.

They're all shut in the cage. Benny Hinn with his hocus pocus all of them inside the cage with their thing deceiving and being deceived but God promised the original apostolic faith one Lord one baptism same kind of gospel Paul and Peter and them had. Same kind of teaching, same way they baptized, same God that they talk about, same kind of teaching, same order that they set by the word all those things had being spoken.

Evening time seed. For what? Evening time people, an evening time church so alpha and omega can be the same so he could plant bringing that original seed back to its original, planting in the last day, what a thing friend. So these things that we are sitting down in the last days is because we recognize God came down, veil himself and was speaking and while God was speaking that word was going out and seeds was laying beneath the darkness. You get that? In Genesis one the world was void and without form and laying in the darkness of the deep. The bible opened with that, a dark chaotic earth the bible ends with the same thing too it says that gross darkness was upon the people and upon the whole earth but the spirit of God moved and that's the first moving of the spirit and when you want to see the spirit move go back to the first move and you will see what happens when the spirit move.

He begins to speak he knew exactly what to speak because that's the intelligence who had created the heavens and the earth and every word he spoke he called for light. Separate light from darkness, separate water from dry land and for six days speaking

speaking just so much each day and when he finished here stood a man in the image and likeness of God. Here stood a bride that was part of him, part of the bride groom and here she was standing in the paradise of God and God coming down in the cool of the evening to fellowship with them.

Out of that chaos and darkness look what the spoken word had brought out of the chaos and darkness of this Laodicea age. Look what God is bringing forth friends that Christ and the church will go back to the kingdom, will go back to Eden and while that is happening now that is the ones that was taken out. In other words I'm saying all the seeds was there what made the Eden so beautiful; here was the big oak standing there; here was the Lilly of the valley standing there; here was little Rose of Sharon over here, here was the seed of Lebanon standing over here but where they was before. A seed in the ground but when that light come forth, the rays of them light begin to quicken them seed, they begin to be transformed, they begin to grow up and they begin to take their place and their position on the very earth. You get what I'm saying?

Many of us who laying in the darkness like some of us in the world in drugs, in filth, out there gambling, out there in the world, out there in organization whatever form you was in. In that darkness there: arise and shine thy light your light and whatever light you needed to trans-quicken you, transform you and help you take your place. That light begins to come to you and from the time that light came something begin to happen to you. Didn't when Elijah start to wave that mantel over Elisha didn't from there something start to happen to him? Didn't when Samuel start to anoint David from that time didn't something start to happen to him. Where did David end up in the throne, where did Elisha end up with a double portion of the spirit of Elijah doing the same thing Elijah did?

From the time Moses came to Joshua and Caleb and them where did they end up? Here was Joshua coming out to stop the sun, sun stand still. Where did Moses found him? In bondage, in the brick pit, in corruption down in Egypt shut up in Pharaoh system. Is that right? That's right friends when the light comes friends, when Paul went out in Corinth and find some was extortionist, some was drunkards, some of you was effeminate, some of you was all these

things when he went into Corinth but God made him what you shall be; a light to the gentiles and when the light go in there Amen, and the word go forth let there be a church in Corinth. Let there be deacon let there be pastors let there be singer, let there be gifts of the spirit. What begin to happen?

A church begins to rise up inside of there and a world begins to change. How does he do it? How does God do it? You see this is the problem let me show you how does he do it, that's why when you don't know the word you does be looking for hocus pocus. You're trying to work with emotion you trying to work with dreams, you trying to work with feelings, it comes by the word. What is the first thing God did in Genesis 18? What is the last thing you hear him say don't tamper with my word. You get that? But man want a programme, man want to work up people, man want to try the music, all them things is part of it but it is governed by the word and it comes out of the word and should only be attributes of the word.

It comes by the word and this morning you sit down there and looking for deliverance and as simple as he tells Laman go and wash in the Jordon seven times. He makes it easy, he tells him where to go, he tells him how much times to dip and let him know what the results is going to be at the end. You know what was his problem? I'm a general, that man didn't give me my respect, I'm next to the king of Syria, I'm the king's right hand man, I'm the judge superstar, I'm the big military man over there. I fight battles in my country I'm so respected I come down here the very man came down here I carry my papers by the king, the king say its not me boy he says there is a man called Elijah called son of shapat go, you will find him down in a certain place.

When he comes down there by Elijah in his chariot and he park and start to fix his clothes, face looking tired he pulls out his brass and pull out his briefcase with his papers Ghazi comes out and say the master say to go in the Jordon and dip seven times. He felt insulted he says "The man didn't come and see me, he didn't invite me inside I didn't get a chance to present my credentials. I didn't get to tell him who I really am had my photography over here on the side to take a picture to put on the bulletin board when we get over there.

Brother some men of God don't operate so they don't need to see you, they don't need to talk to you because meeting you and talking with you is not so important sometimes they want to see obedience to the word first then that will bring fellowship after. But some want fellowship and they ain't agreeing on the word yet. You get what I'm saying? He felt insulted he guff up his chest, he get vex, I'm going back Syria that river we past there muddy in the open so all them house round that place see me going inside of there. If that news gets back in my country you know that will let me look down here. That isn't good for my image boy nah nah that belittle my status. His status meant something in his country but his status can't deal with leprosy. You come a leper you go back a leper and that's how people come to church.

They come a leper they hear the word they fight up they resist it, they find so and so they want a private interview, they get a private interview, they fight up and then say nah I ain't going there and you go back out a leper. You get what I'm saying? Because you want to make everything a cage, your status, your reputation, your recognition that you have, your image, your background but God is not interested in that. It have time when people could hear your life's story and worldly achievements but it have certain days for that and it have certain days to get on with God's business and that was a day to get on with God's business. That was not a day to get on with too much diplomacy and bureucy too much protocol that was a day for you hear the word, you recognize the truth, you obey it carry it out to the letter and you go back and testify and light up your country with the glory of God.

A little bit of God down in Israel but sometimes when you come from Syria, Syrian priest does operate different because Syrian priest on membership, they are good mixers they are seducers they see Naman that's plenty tithing boy we have to treat that man with special treatment. They say "Put him in a high chair " The next man he's a farmer he's in the farming business that ain't doing good put him aside and then they create caste system in the church, higheracy and low people but where ever you find the word it don't have that friends. Wherever you find the real word it doesn't have them things at all. It's like Israel in the sheep gate, all man come through that; fat man, tall man, man with no money in the bank, man with no reputation, you come through that because

you're not coming to a place to exhibit your person. You come in a place to receive the word of God; you come in a place to worship God. That's right, that's what spotted the church with humanism, that's where you get church politics and they create a system for a certain bunch of celebrities. The rest of the people are just statistics, not in God's church friends Jesus say you have the spirit of the Gentiles you want to be Lord over one another and who want to be Lord and who greater than who. He says get rid of that nonsense, try and see if you can come out of this and then you can enter in. Is that right?

How many know he's the same yesterday today and for ever not just in healing not just in praise and worship in all these things too that's right my I love him I love him better everyday yes sir

I got to close time is gone maybe I just should not put away them clergy man things so quick sometimes one can help you manage your time good amen

I'll finish my quote here and I'm going to close. This is the apostasy this is the falling away, this is the open door to the anti-Christ. There was something in this age that had to be made known and listen to me as I close up with this. One of the things was this world was going to be given up to the devil completely, that's why God says they didn't have a love to believe the truth, he's going to give them a strong delusion to believe the lie and be damned by it, in other words they wanted lie, they wanted denomination they wanted man's person to hold in admiration, they wanted a system where they can be lukewarm neither hot nor cold. He says I'll give them that, they want a form of godliness I'll give then that kind of thing, they want church politics they will have that and Christ refuse to stay among that in the end time and that's why he's found outside the church and is given over to their desire. Romans 1 says what and he give them over to a reprobate mind because the very mind that God give them to make decisions. He says they ever learning and can't come to the knowledge of the truth. You have a bible school man say well you're not qualified yet, you're only just a little pastor you can only get your bible certificate for the six months course that you take but if you want to get really qualified you have to go and study para-religion, homiletics or what ever it is.

I don't even know what it is and then he says you have to go now and get your PhD see they're doing all that to become ever learning and can't come to the knowledge of the truth and after all this they still have baptism in the Father Son and Holy Ghost and no body know that in the entire bible.

There is no baptism in the Father Son and Holy Ghost, he says in the name of the Father, the Son and the Holy Ghost not Father Son and Holy Ghost and with all that teaching they going and take a man and immerse him in Father Son and Holy Ghost. They even repeat what Jesus says I baptize you in the Father Son and Holy Ghost and yet you never find Peter, Paul, Phillip, the three of them who walked with Jesus, who the spirit at Pentecost. In Acts 2 Peter step out full with the Holy Ghost what shall we do to be saved? He says repent and be baptized in the name of the Lord Jesus Christ for the remission of your sins and you shall receive the baptism of the Holy Ghost.

Phillip come up afterwards went down in Acts 8 in Samaria preached down there and baptized them in the name of the Lord Jesus Christ. Paul in Acts 19 went down there found them baptized under John baptism he say unto whom were you baptized? He says baptized brother it is a good thing you ask the very man himself who got the Holy Ghost from his mother's womb who baptized the Lord Jesus Christ himself, the very same man that baptized me. Paul says sound good but you have to be baptized over. Is that right? He says sound good but you only believe unto repentance, the baptism of repentance believed on the lamb that should come but when the lamb came and his blood was shed you have to be baptized for the remission of sins because you baptized when no blood wasn't shed.

Yet those that we baptized believing unto Him who was coming behind. See? Look at the great-learned people we have today, sprinkling children, infant baptism not repenting when they baptized. You get what I'm saying? Look what the church world has become, look what it start to be an apostolic church at the day of Pentecost. Look what it has become around in the world, look what the world has become around us it's change. Look at Israel I don't have time to go into it today but when they went down into Egypt unto Joseph, Pharaoh says to give them the best in the land. Carry them in Goshen his father's estate, all twelve sons, estate

and everything else fix up nice in the land and a Pharaoh raised up that didn't know Joseph and that world changed around them. And from people who were celebrities in the best of the land find themselves slaves. You know why because when that time came he says we can't continue this way, let us deal wisely with them. In other words there is a conspiracy **The Conspiracy And Their Conspirator's** they plan to enslave and cage up these people. They say unless war break out and they go with these people or they get out of this country to go they are too much valuable commodity to this country, they are a good human resource, they're skilled in so many things we need them to help build this country but we can't tolerate them living as dignitaries and celebrities in this country because they're getting too powerful.

That world changed around them by the time they waked up they was begging and crying and groaning for deliverance that they couldn't come out of it. It took the Lord himself descending from heaven through a prophet to get them out of that cage. Didn't Moses come in the last days to get them out of Roman hands, didn't Elijah come in the last days to get them out of that Jezebel system. Isn't that under the sixth seal the beast and his kingdom that we are trying to move them out of? Now that is becoming a cage and the Jews is being hunted right now and is to be trapped and be put in that cage they going to get their money tied up and 144,000 is to come out of that cage and God shall come down in two prophets and in that day shall Michael stand with them two men on the earth with an open book to deliver the names written in that book, Daniel 12. Is that right? How far is that? Is it the next generation? It is people that you're seeing now in the earth that you meet out in the shops, that you meet out in the mall, that you meet traveling in the road, that you meet on your jobs, that you in the offices that you see out in the industry, that you see out in the schools is the people that you read about in the book of Revelation right here because this is the last generation. The generation that see Israel become a nation will not past away until all these things be fulfilled.

When that last sign shows itself to Abraham that God was going to burn that gentile world with fire which he did, when Noah that prophet came that was the last generation. Think of it as it was in the days of Noah, as it was in the days of Lot so it shall be in the

last days and right now God is taking a people out of this world, out of the influence of this world. The rescue he's delivering from this present evil age, that angel with that open book has come for deliverance, he's delivering the names that's found written in that book. Then friends if that is so when Moses and Elijah comes remember the whole world is a one government, ten kings give their strength and power to the beast, one religion, one religious system united brotherhood of religion Protestant Catholics all these people coming together World Council of Churches.

Since September 11 the world has changed, the world has gone into a new era because the laws that it took to bring the thing on, they begin to deal wisely with the people the conspirators Absalom begin to steal the hearts of the people. He begins to deceive the nations on a mass scale and now they have the whole thing almost fully caged up but to come out, the only way to come out is supernatural power.

Elijah could only get them out of that cage by God coming down with the supernatural. Moses could only get them out of that cage that's why when Pharaoh say who is God I don't know God, he says and these people you coming to interfere with I'll make it harder for them now. They had to make brick without straw and the oppression started and they begin to oppress the people. Friends that is not there for Jewish history that was the first Exodus, the very fact that we a prophet like unto Moses in this day with a pillar of fire and a pillar of cloud. The very fact that it took that message to deliver us out of a system, a nation out of a nation, Israel was a nation trapped and caged up and enslaved in that system and couldn't come out on their own, it took God himself to come down and take them out. The same way in this very hour it is going to take God too, that's why you hear the preaching, you come and you hearing it but you have to understand this evil age. This kind of age, this age come on because certain things were opened from the tree of knowledge when Bill Gates and Steve Jobs and all these people, anointed ones in the end time, begin to catch these mysteries and open up a door in another world into cyber world.

When they start to put things in the hands of man to unite the whole world and the information super highway and bring the whole world into your house. People have these things but they

don't know what they have. You get what I'm saying? But look at years it took for man to discover that, what start as smoke signal, a technology in song, beating the drum sending a message. Man hears that he says the chief over in that village dead boy, funeral, we have to go. You understand what I'm saying? Fire! That's an emergence we have to go you hear that drum how it beat there. They understood that, that's a way they used to send message. That was a system, a communication system, those people take their smoke signal and they little blanket and they little fire and a man look and say fifty riders coming, fully armed get ready for the ambush. That was a communication that came from smoke signal to satellite signal. Think of it? Long ago in the bible it had runners running with the message, that was the postal system then you get pony express then you get air mail, pigeon carrying message brother you're now into a realm with the opening of the fourth dimension. You're seeing back into yesterday, over in tomorrow you're seeing everything that's happening, everything that's in place is right here now. Why? A key was given to open that, men got a key and men bring the world up to a next level.

From the time man got that in their hand they saw how they could enslave the whole world, that's the plan friends. There is a maximum-security prison that is being built on the planet, you can't buy and sell. The only one who has the liberty and privilege will have the mark of the beast, will have to bow to the system, will have to be part of the system and the system is designed to identify, to reveal those who are of the system and those who are against the system and those who are against the system is terrorist and the system has the technology to influence the whole world in a mass scale. The people are already cultured into that, they accept these things as the way of life; they accept these things without any understanding.

The educational system has done its job so good like I tried to show them last week education is only teaching you to perform a task. People start from kindergarten, go all the way to university and when they come out they're still uneducated in life. I meet them all the time sit down and talk to a man. a Doctor, recently here and we sit in the man's house trying to talk to him about the word and different things. The man studied in Harvard, a big celebrated person even in sport he played for Trinidad, big

dignitary in the country, the man is as blind as a bat. I tried to be polite I say you know he really feel insulted but it was in no spirit of bitterness trying to put him down. I was trying to show him simple things that he could understand and couldn't grasp what the educational system do to him and now he's at the age of dying, he at age 88 and agnostic. He's a Christian he don't know if God exist he's trying to find the truth, he isn't sure it have a God he isn't sure what is going on. The man is full of fantasy and fiction and he can't even make a decision of how to prove if something is wrong or if something is right. From the time they take him out of that little box of this medicine for that and this for that of the medical book and the school, he knows nothing else that's what you meet everyday.

Yet God in his kingdom have an education so far higher than that, you can see God in everything. The bible talks about God in his prophet, God in his creation God in the birds God in the birds God in everything they show life they show examples about Jesus with the fish, the man catching fish the man with the sheep. He talks about the man planting his garden the sower sowing the seeds, he talks about God in so many ways until they marveled. This learned Rabbi where this man get his wisdom from, yet he was right among them but that system had made them that. Here the Holy Spirit friends without the escape from these things only the Holy Spirit can bring because only a new birth could cut you and deliver you from the womb of this world into another world.

Your first birth puts you into a world that Satan already mastered, in other words he stands there waiting for you to come out of the womb. His way of bringing you is how you come in there in the first place, the way he brings Eve is what bring you in the beginning, from the time you drop in this world he's right there to go down with you through life's journey but it is only God deposit something inside of there. That's why Moses kill a man, that's why Sampson was what they were, that's why God had to pick up men like Gideon to use them men who was nothing and made something out of them. That's why Peter and all of them... look what it takes for God to make a man if there was not a God to deliver, while the church had good clean men, like Nicodemus and all these different things. Look what they had the church in? Jesus says you are teaching Israel and you know these things marvel not

I say unto you, you must be born again. And friends this cage, this system, this Satan's Eden, what we're seeing the prophet when he told the people he says you might think I'm against education but do you know the things that we have in this world that we prize so much and feel so great about is what has brought us to this condition.

I'm going to show you education civilization and science, science giving us all the things to say we're a better people, science give we a motorcar, science give us a plane science, give us rocket. Science gives us food, now science change we food until our bodies get perverted. Satan get into the food and get in our bodies now they have man living on pills now you have to take supplement because what you're eating don't have that inside of it because science give you the food to begin with. They take it out of God's kingdom and they breed this with that and that with the other and by the time they done now what they make, brother children come with all kind of sickness, deformed, science give us the medicine, they say you no longer have to prayer for healing, that's fascism now we are in a age here now you have to be smarter than that. This is medicine and they get people addicted to drugs and the people who making the billions is the people who manufacture the drugs and the world dying all the time. You get what I'm saying? Send them out in the Universities they don't believe in God no more. What has happened? Send them in seminary when they come back they don't believed the bible is inspired. He has perverted the world, he has perverted the people, he has perverted the word, he has perverted the church, he has perverted the nations, he has gotten into everything and has perverted it the only way to come out of that is God have to get back in a man to convert him. That's the only way friends and every church every doctrine that Satan have none can't give the Holy Ghost because all is the lie being born of corruptible seed but being born again of the incorruptible seed. You born a Baptist corruptible seed does make you a Baptist not a Christian that's why a Baptist doctrine could only make a Baptist, a Methodist doctrine could only make a Methodist, a Pentecostal doctrine could only make a Pentecostal, a Jehovah doctrine could only make a Jehovah Witness why? because every man goes in the bible brings out something make his own doctrine and then make a certain kind

of Christian then the Baptist would fight the Methodist, the Methodist would fight the Seventh Day Adventist, Seven Day Adventist fight the Catholics see a bunch of confusion when the word will make you a son or daughter of God.

Let the musicians come for me.

The word will make you a son or daughter of God blessed be his name. The cage he has led the world in a cage.

Let's stand to our feet. I want to sing that same song I sang last week *we are free*

Come out of her my people, come out of this confusion the world is called Babylon in the last days. Babylon was the beginning of Nimrod's kingdom and Babylon was built on the Euphrates River. It was a perversion of the Heavenly Jerusalem and Babylon is where satanic religion had its origin, where Satan had exulted himself after he had enslaved the whole world that's what it becomes in the last days there is a call going out through the land come out of her. You hear this voice today compare in the bible see in the last days Satan wants to be the god of this evil age, this god and it says the god of this evil age has blinded the minds of the people. See? In Galatians 1:4 where he says but the son of man Jesus Christ has come to deliver us from this present evil age that's this age. See? In the last days as I read for you Christ is on the outside of the church that was the open door for the anti-Christ where the man of sin would sit in the temple and be worshipped by this generation because they have come in that condition where they can't tell right from wrong. People today cannot tell right from wrong you see it all the time man going with the wrong woman, woman going with the wrong man, woman go in the store and buy the wrong clothes. You see it all the time, buy the wrong clothes and come to church that is what you buy and you're a Christian that's what you put on to come to church. You have no mirror in your house? You can't see that thing tight on you? You can't see it showing all your under clothes? You can't see that you're dishonoring the very God that you stand for by dressing that way and then you have a husband too and you're a mother with children see? Yet in this church, a message church in this church sometimes you past and you walk through the church and your heart grieve your blush, I feel bad you preaching your life out these

people are not hearing this word look at them they want to stand up and sing in the choir.

Look at the condition they can't see that dress they can't see that tight, in their mind when they look its looking nice on them because their eyes seeing through their heart which shows you that their heart isn't clean yet they don't understand what is; be not conform to this world. They have not seen this world what it is and that's what I'm trying to bring out this world came so in the last generation in the last forty years or so it's a different kind of world under the fourth seal. The world unite to bring hell here, hell come here and a man don't have to die no more to go in hell, the people are in an insane condition and knoweth not.

They don't know their condition, man look in the word and don't know his condition. If you're a son of God you backing that up you supporting that, where is your backbone to tell a man that's wrong. Where is your conviction your principle? You stand up there and see somebody going and you wouldn't stand up and say hey what is that see? You know how many times people have lost conviction until you can hardly find people with conviction. People does get together and talk about other people you don't see so and so and you don't see so and so and ask you ever went and talk to them well I ain't really get the chance you know. So you get a chance to talk about them you aren't getting no chance to talk to them. You getting chance to talk about them you aren't getting no chance to talk to them. You getting chance to talk about them not that friends what you're criticizing you're the same. You're even more blind because you can't even see that you're suppose to have light and use your light and deliver and you use your light to sit down in the seat of the scornful. You need the same blood and you kneel down there and say I was condemning in my heart, like the prophet, you need to see the same blood and have the same experience because many times many stand of there and they look down there and they condemn because they get self righteous. Where is the Holy Spirit during that time? The Holy Spirit convicts you of sin friends because when the Holy Spirit see you condemning them the Holy Spirit say you condemning them let me show you you. How come people does stand up there and talk and talk and talk and talk and say they have the Holy Spirit

and nothing does be there to condemn and say don't look at the person help them, lets wake up.

You want to climb up higher in God this is how you get higher in God. You does have to judge yourself first by the word you start to see what you are and you start to know what kind of influence am I having and what did God give me the word for to influence someone. How can I influence someone because you know what is going to happen when the word come in you, you going to find yourself loving people that brother seemingly against God, people with spirit of rebellion in them, people with resentment, people with no respect you know what love does do? Love does put you out there and some have compassion, anytime a kinsman in Israel have to go and deliver somebody or somebody in slavery or somebody captive or somebody under the control of another power or somebody shut up in a system and when they went there they had a price to pay. They didn't went to negotiate for that person they had a price to pay for that person that's why friend many times we try to use method that might have to put us in some situation where we can talk on the phone and say yes so and so. Some times you know it say Moses have to leave up there and go down in the mud pit and when he get down in the mud pit he start to feel what they feel then he start to understand the condition, then he start to detest that condition then he start to realize that ain't fit for even a pig to live. Then he start to want to do something about the condition but until sometimes we ain't even get down there that close we just want to hand then a book, hand them a track and expect that to save them.

I pray that today God as the prophet say I ain't non of that sinful but I see need to have a deeper feeling than what I have I see I'm building up a complex, I see I'm beginning to get an attitude that I don't want to get in my life. I want something that would flow out still because the only way to take you out of this is God. God have to take you out of this cage is no way to come out of this, there is no way to come out.

We have a very urgent need here and I want you to believe our brother Raymond and sister Karen they have a little girl and what I understand she is not doing too well the doctors are concern about the girl and they have to leave her there and she is under observation and we believe that God is more than able to raise her

out of it amen. Sister Pearl's granddaughter they even call her Pearl and we want to believe for this little girl Faith. Lets just believe and have the confidence that our God our sister is standing on behalf of her daughter and granddaughter.

Lord Jesus here we are Father standing here maybe all of us in this very building though some of us might not be in the best of health yet oh God it might not seem fit we should have been kept in the hospital Lord, under doctors examining eyes and instruments Lord because of failing in our condition but this new born girl, this little darling, this love gift that you have given to our brother Raymond and sister Karen Lord knowing them to be such faithful children of yours Father. Our brother Raymond always ready and willing oh God come what may regardless of what the circumstances are Lord to make himself available for your work and for the assistance of any of your children and dear God our sister Pearl that this open door of opportunity knowing dear God what you did just last week for the little Harangue boy, Lord God what you did for that little baby of Brother Miguel, Lord God so you can do the same for this little girl. You're still the same God and we are still the same people standing upon your word and if we have fail in anyway we know you cannot fail but Lord Jesus if there is something in our path we ask that you forgive us of it now blot it out now that we can stand here as a true representative without anything to hinder the moving of your spirit and so Lord we unite our faith together on behalf of this little girl in the hospital and we ask that your great power of deliverance. Your arm is not short that you cannot save neither is your ear deaf that you cannot hear may even now you reach out your out stretched arm oh God and raise her out of that condition of sickness and raise her up into health and may in the name of Jesus Christ that devil loose its grip, that Satan we command you to take your filthy hands from of that girl.

We rebuke you that devil of sickness in the name of Jesus Christ and oh God may the spirit of healing, the spirit of power move upon that girl and raise her up in health for the glory of God that we the church of the living God ask for it in the name of Jesus Christ. We receive it from you father and oh God you're a prayer answering God may there be great peace settle over the parents may it drive back from off of them and may the absolute that they

are tied to hold. May their compass point to the north start and like the shunite woman say all is well may our sister here go with that blessing on her and with that faith in her heart knowing oh God that your promises are sure are yea and amen. We thank you Jesus we bless your mighty name.

We are free song 461

And boldly testify, that we are bought with a price

His blood has our sacrifice

That makes us free for the marriage unto him

We are free

Purged and born again so rejoice in our day, the price for freedom has being paid

Who the son has set free

Is free indeed

(Bro. Vin leads the congregation in singing)

Hallelujah I trust that you can see friends that this message is not out of Babylon that's atomic fodder, it's to raise up a church in the last days to dress a bride to bring her into union with Christ that she becomes the very expression of Jesus Christ. The bible say without spot and without wrinkle and this hour a word that is to bring birth pains upon the church labour pains this great Christ and this woman travail in pain to be delivered. This word is to be born into manifestation again until every move in the church reflects Jesus Christ friends. See what the world is, John says if the love of the world then the love of the Father is not in us because the world and the things that are in the world, the lust of the eyes, the lust of the flesh the pride of life this is what the world is friends and the world passeth away. If you understand what the message is when the messenger comes and opens the message and the provided place is reveal and the bride moves in the provided place what is left back there is for the fire.

There is not a future there friends when the message came to separate us in this hour in the last generation it was to take us to another world not to another generation in the same world. Paul's message took us to another generation in this world, Ireanus message brought us to another generation, Martin brought us to another generation, Columba brought us to a next generation but this message brought us to you're in the last generation the world

is fixing to past away now and God is raising us up giving us faith for the rapture. At midnight behold the bridegroom cometh go ye out to meet him those who were there they trimmed their lamps and the wise went in with the bridegroom and the door was shut and the foolish was caught there in darkness.

Good church people that did not go in even though they knew the Lord had descended even though they heard the voice come out of her my people even though they went out but they did not go in. Do you want to be that? You want to come this far and just go along with a church life, go along seeing the influence of the church upon you and God is saying give that up, change that that's a snare obey him today. May he give you the spirit of obedience because one of the things in this age is the spirit of rebellion because this civilization started where Cain refused to take correction and went out of the presence of God. He began to work in science and that's the first city he built. Man began to change the world and bring on this kind of civilization and for 6000 years Satan had built this kind of Eden through children of disobedience that's why there is a spirit of this world. You're in the world you're part of the world that rebellious spirit and influence is there to resist the word, you have to overcome that. The bible says first I John 19 the whole world lieth in the wicked one that's why Jesus say Father I prayer not for the world but these whom you call out from the world. These who have received my word I prayer for these because the rest is dead friends when they held to the world and refuse to follow him they die that's the same Father I prayer not for the strong but I prayer for the frail. Think of it friends you take that in your heart its not hard, I might express myself in a strong way because I want to see I don't think we have ten years. I don't think we have five. You get what I'm saying?

Lets bow our hearts I like to invite brother Stewart to come and prayer right around the building you say Lord I don't want to be contended to attend church, to enjoy church, to feel good that I have friends in church to be part of the church Lord I want to be a witness for you. I want someone in the world to see my life and say there goes a real Christian someone to be influence by seeing a life that has overcome this world that does not reflect this world but reflect that kingdom that is coming. Daniel says that rock struck them ten toes and ground that image to powder, that's this

world friends, this kingdom has come the end of this age. There's a kingdom coming that will fill the whole earth and this word you're receiving that very kingdom by this very word. We are receiving a kingdom that cannot be removed this word will pass away but this word will never past away. Consider that, weigh it out and like Elijah says why halt between two opinions. Choose this day whom you'll serve drive it down in your hearts like Rebecca say I'll go and Elijah say I'll never leave you nor forsake thee, David says my heart is so full and my soul followeth hard after thee. You come to that kind of conviction I know that God will bless you.
