

Third Exodus Assembly

God's Astronauts And Their Space Program

Pastor Vinworth A. Dayal

20th November 2005

God's Astronauts And Their Space Program
20th November.
Sunday 2005.

*My God knows over time is drawing near
And very soon the dead in Christ shall rise again,
There'll be no more sickness, no more crying over there
But for now Christian soldiers keep on pressing.*

Chorus

*Can't you hear your Theophany calling you?
Its a sign its almost home time
I'm just waiting for my promise body change
Then soon I know, I'll be with Him on high.*

Let us pray. Heavenly Father, as we bow our hearts in Your great divine presence today. Expressing our faith and our expectations, in the song that You have inspired to us by the revelation of Your Word. And Lord knowing that this is Your plan for this age. This is the very program of God that's unfolding at this present time. This is the great symphony of Your Word, the great drama of God that's unfolding. And how in our hearts we desire to be in the rhythm of this great symphony. That the very spirit of the composer would come down upon us. That our every move dear God can reflect this great promise in the scriptures. This great happening dear God, that it takes such anointed eyes to see, enlighten minds to grasp and get a hold of it. It take dear God such a close communion with You.

And so as we draw near today, realizing Father we have come to the end of the world. We've come to the end of the age. We have seen the appearing of the Angels. We see the condition of Sodom and its iniquity. Lord, we see the blindness of the people. We see the lukewarm church, that made you so sick in Your stomach, it cause You to vomit it out. You spew it out of Your mouth, because they was neither hot nor cold. A world that has gone into apostasy. An age that is given over to a reprobate mind because they didn't have the love for the truth.

They love the lie and You gave them strong delusion to believe the lie and to be damned by it. But through your divine grace You

give eye salve to Your Church. To the Elect dear God. You say, 'come and buy of Me eye salve that your eyes would be anointed and you would see. Come and buy of Me gold tried in the fire. Come and receive white raiment'.

Lord, we cannot turn back the clock. We cannot turn back the scriptures from being fulfilled, because thus was it spoken and now it is being made manifest. But we have seen a way that You have provided. A way of escape and how it behooves us with all urgency, Lord to get into the place of safety. Knowing oh God that door is fixing to swing shut, Father.

We remember in the bible when You told that parable. At midnight there was a loud cry, 'behold the bride broom cometh, go ye out to meet Him'. And the virgins rose up and trim their lamps. Under the effects of that message, it was lamp-trimming time, Your prophet says. Lord God some discover they did not have oil. Even though they saw the coming of the Bridegroom. Even though they heard the voice. Even though it struck them dear God. Yet they found out Lord under that time Father, when these events was swiftly moving, that there was something that they lack. Things happen so quickly, by the time that they went to look for it. You came in.

The door was shut and they found themselves shut out after having this great knowledge, of the coming of the Bridegroom. Of the voice on the earth announcing that coming, of the wise getting ready to go. Lord it reminds us in the bible, the days of Elijah those who knew that the Lord was going to take him up. Yet they didn't have what it took to go Father.

Help us today dear God, while we would come through these doors and be in Your presence. Lord we will remember that one of these days would be our last day. We'll realize oh God, for the past forty-two years dear God, since the Angels came. Since the Book has been opened and the Holy Spirit has been on the earth. The Angel of God fixing things for the coming, for the translation of the Church.

May today dear God, You send down Your great grace and favor among us one more time. May Your Spirit move in such a way, that it would so sensitize us to the hour that we are living in. It would so bring us more focus to the details that we need to see Lord. Knowing how to prepare for this great translation faith.

May dear God we take inventory Father; may we search our hearts and not just take things for granted.

Lord Jesus sanctify us, oh God even as we stand in Your presence. Blot out all our transgression oh God. Forgive us our sins and our shortcomings, Lord all our iniquities, all our failures. Lord we just pray that Your Holy Spirit would circumcise our hearts, that dear God we could empty. We could find places where we could empty out, that we might become more filled. Take the young ones, oh God amongst us. Them that don't have a revelation Father. That these things seem like fantasy to them, because of the grip of this world upon their lives. But oh God we pray Father that Your Holy Spirit, Lord, Lord would work that much more.

You say, 'when sin abound, grace much more abound'. And how we pray that Your grace would abound Father. Like it was in the time of Elijah when he says 'Lord open the boy's eyes'. Lord God that eyes can be open that Lord God people can come to an awakening Father. Oh God to see dear God that Your presence is here among Your people, may You grant it oh God. Lord we commit all things into Your hands today. Praying oh God that You will be so mindful Father, of our needs dear God. Our hearts are open before You.

Remember Your children out in the islands dear God. Remember Your servant out there in Tobago preaching to the people today. Remember Lord, Your other servants standing Lord in Grenada and St. Vincent, Lord out in Dominica, St. Lucia and St. Kitts be with them dear God. May Your Holy Spirit, Father, Lord work in such a way that Lord the things that they have seen. And the things they have heard, and the things that they hold precious in their hearts. The Spirit of God would continue to pour out revelation, and these things would become so much real to them Lord. That Lord as Job say, 'I have heard by the hearing of my ear but now with my eye I see'.

And oh God may that seeing bring a partial realization to a perfect realization. May You grant it Father, we commit all things into Your mighty hands. Remember the strangers and the visitors within our gates dear God. Those who You have drawn by Your Holy Spirit today. That truly oh God, we would not just come in and go out the same, but Lord we would have such a divine

encounter with You. Get honor and glory we pray, we commit all things into Your mighty hands.

Help me dear God knowing Father that I am depending upon You, Lord may Your leadership, for Your direction. Let Your great Holy Spirit Lord, that the one I looked too. Who have led me down through my life and grant me Your grace. Oh God, give that which would be so necessary to feed the sheep and to feed the lamb. You say blessed is that faithful and wise servant. Lord in this great hour of famine, Lord who would give out that food, that meat in due season.

And this is what we are interested in Lord, take this resurrection bread that have been brought to us Lord. Oh God to have the confidence that Lord Jesus it is sufficient Father. We would not have to look at it and think it is insufficient but put it in Your hands can be broken. And Lord God it can feed the hearts of Your children. Ministering nourishment in their souls, building them up into this perfect raptured faith. Grant it we pray in the name of Jesus Christ, we ask these things, for Your glory and for Your honor, amen.

Gracious Father, You say 'if two shall agree as upon touching any thing it shall be done, that what we bind on earth is bound in heaven and what we loose on earth, is loose in heaven'. Lord You require of us to believe Your word. We heard it, we recognize it is the truth and God here we are acting upon it Father. We lay our hands upon this little girl so afflicted with this diarrhea. We take authority over this condition and this devil that has afflicted her with this condition. And we rebuke that devil, Satan take your filthy hands off of this girl in the name of Jesus Christ. As the Church of the living God stands upon the unfailing Word of promise. With faith in this finish work of our Lord Jesus Christ you say 'by My stripes you were healed'. We pronounce the blessing upon her, may she be well for the glory of God. In the name of Jesus Christ we pray, amen.

Like to invite your attention this morning to the book of II Kings. Played a little tape for you last Friday, Wednesday and Friday on some of the things I preached in Grenada. Would just like to stay there a little bit and rehearse back some of it. And knowing that there was some, who was not here in service Wednesday and Friday. And it was believed that it was such a blessing for us who

was here. That the Holy Spirit truly was present, just come and fill the place with such a divine presence. And we want to be sensitive when we see the Holy Spirit moving behind the Word. We want to stay with that Word, amen. So I'll like to go back to II Kings, chapter 2, from the beginning in verse 1.

And it came to pass, when the Lord would take up Elijah into heaven by a whirlwind, that Elijah went with Elisha from Gilgal.

Notice the scripture, the Bible say, all scripture is given by inspiration. It's probably for doctrine and we know that these scriptures are put in the Bible, because there is going to be a rapture in this last days. And so that we might be prepared and come under expectation and understand and don't have to imagine how God would do it. We have examples in the bible, knowing He is the unchanging God. And it says,

...when the Lord would take up Elijah into heaven by a whirlwind.

Now remember before that in 1st Kings 19, Elijah was praying to die, but God didn't answer that prayer. Many times we come, become discourage with things in our lives. With things around us, things in connection with us that sometimes, you think Lord just let me go. And we feel that way because Moses felt that way. Jonah felt that way. You know the prophet felt that way, he even tried to killed himself, commit suicide. We know pressure can be something that can you know really bring deep discouragement. Take people into great despair, but Paul say the light affliction is but for a moment. That sometimes in the depth of these things we find a closer communion with God. We find a deeper fellowship with God because His ways are past finding out.

But here God now is to take Elijah into Heaven by a whirlwind. And it tells us the time when the Lord would take Elijah up. It tells us the destination into Heaven; it tells us the mode of transport, by a whirlwind and all of this is originated by the Lord, in the Lord. It is not Elijah praying to go up into the third Heaven; it is the time has come when the Lord would do it. The bible tells us, at the last Trumpet the dead in Christ shall be raised incorruptible and we shall be caught up with the Lord in the air. The Trumpet is the call to the marriage supper, so God appoint a time to be taken up.

Luther could have prayed Lord take up Your Church, it wouldn't have happened. Wesley could have prayed Lord take up Your Church, it wouldn't have happened. The Pentecostal could have prayed Lord take up Your Church, it wouldn't have happened in that time. But its going to happen in this time because the time has come. We are called to gather for the sounding of that last trumpet.

And Elijah said unto Elisha, Tarry here, I pray thee; for the Lord hath sent me to Bethel.

And from Gilgal, he was coming to Bethel.

...And Elisha said unto him, As the Lord liveth, and as thy soul liveth, I will not leave thee. So they went down to Bethel.

And the sons of the prophets that were at Bethel came forth to Elisha, and said unto him, Knowest thou that the Lord will take away thy master from thy head today?

They knew the day, when it was going to happen. Just like we know the age. Enoch the seventh from Adam was taken up so God marked the age. When that seventh age come that's the time for the rapture because seven is completion, the church world know that too. The churches, denomination preach these things.

...And He said, Yea, I know it; hold ye your peace.

And Elijah said unto him, Elisha, tarry here, I pray thee; for the Lord hath sent me to Jericho. And he said, As the Lord liveth, and as thy soul liveth, I will not leave thee. So they came to Jericho.

And the sons of the prophets that were at Jericho came to Elisha, and said unto him, knowest thou that the Lord will take away thy master from thy head to day?

Three times here, already we see. From Gilgal, it reveal the Lord is going to take him up, in Bethel it revealed the Lord is going to take him up. And in Jericho, it revealed the Lord is going to take him up.

There was schools of the prophet in Gilgal; there was schools of the prophet in Jericho; there was schools of the prophet in Bethel.

And every place those children of the prophet, they knew what hour it was and what was to happen in that hour.

...And He answered, Yea, I know it; hold ye your peace.

And Elijah said unto him, Tarry, I pray thee, here; for the Lord hath sent me to Jordan. And he, said as the Lord liveth, and as thy soul liveth, I will not leave thee. And they two went on.

And fifty men of the sons of the prophets went, and stood to view afar off: and they two stood by Jordan.

And Elijah took his mantle, and wrapped it together, and smote the waters, and they were divided hither and thither, so that they two went over on dry ground.

And it came to pass, when they were gone over, that Elijah said unto Elisha, Ask what I shall do for thee, before I be taken away from thee.

Fourth time, he's expressing again, ask before I be taken away from thee. Watch how conscious he was, I want you to notice that. Elijah is a type of the translated one. And here we see that the conversation in that very hour once the thing was reveal to him, and he knew how the time that he had come too, this was the influence that governed him. Every time he speaks here its concerning him being taken away.

...And Elisha said, I pray thee, let a double portion of thy spirit be upon me.

And he said, Thou hast asked a hard thing: nevertheless, if thou see me when I am taken from thee, it shall be so unto thee; but if not, it shall not be so.

Again for the fifth time, when I am taken from thee, not I am going up. He's conscious if I'm to leave something is to come to get me. That is clear in his mind, because is when the Lord would take him up.

And it came to pass, as they still went on, and talked, that, behold, there appeared a chariot of fire, and horses of fire, and parted them both asunder;

While they went and talked, while they went on talking, while they were walking and talking, while they were in fellowship, while they standing side by side talking.

...and Elijah went up by a whirlwind into heaven.

They knew the one that they was coming for, those both of them was together. They know thee one shall be taken and the other shall remain. They know the one because it said when the Lord would take Elijah up.

You believe this morning the Lord know everyone that He's coming for? And notice Elijah knows he's going and know this boy not going he's staying. And he desires to do everything he can for him, before he goes.

And Elisha saw it, and he cried, My father, my father, the chariot of Israel, and the horsemen thereof. And he saw him no more:

It was so quick, it was so quick, he was right there talking to him. The conversation wasn't even finish, and he saw him no more; he was gone.

They saw the chariot of fire and the horses and all of a sudden he was gone.

...and he took hold of his own clothes, and rent them in two pieces.

May the Lord bless the reading of His word, may you have your seats.

It was very instructive reading and I'm, maybe I should just read over a little bit in II Kings 6 as well. Take a little portion there; see from about verse 8.

These things is the perfect parallel to the day that we are living in which I'm going to try to see, if I can bring out for you to see what God has laid in the scriptures here and have sealed up for this day. And now that the hour has come the Holy Spirit have to open the Word to give us the faith that we need.

And faith must have a resting place; faith must be based on the Word. If you are believing God for a promise, you must see God make such a promise. You must know in the scripture if that is something that God promised and you have to prepare for it to happen. You must be able to look back in the bible and see where God did such a thing that you could have faith in it. You want to

be baptized you have to find in the bible where people was correctly baptized. That's why people does get baptized and have to baptized over, because they didn't look at the example where people was baptized and where they got their sins remitted. And so they have to come now and get a correct baptism if they have to get the results that is to follow the baptism.

And you find that when they found the place and they did it according to that, the results always came. You find that if you want to be healed, you have to look back in the bible and see where God healed somebody see the approach to it. And when you see the right attitude of approach like the Syrophenician woman how she approached God. She gave Him his right title; she submitted herself; she come into humility. Then He say, 'for this saying go thy way, your daughter have it'.

You see the Roman Centurion, saying I'm not worthy for You to come under my roof. I'm also a man of authority, if I say to one go and you see the way he approached God's gift. You see Martha and Mary, how she came she say Lord, hath You been here my brother wouldn't have died. But we know that You are the Son of God that is to come in the world. If you ask God for anything now it will happen. She gave His right title; she had the right attitude of approach; she had the respects to Him and she receive it.

We see Hattie Wright in this day, she say that's nothing but the truth brother Branham, jut like that woman back in the bible and she received the very same thing. Why? Because these things were given for examples.

If you see how somebody got save, 'woman thy faith have saved thee, go and sin no more lest a worst thing happen to you'.

And you see how that woman came in humility; she submitted herself. She saw He needed a service to be done; she wash His feet; God furnished the tears; God furnished the towel, her hair to dry His feet and these things. And then she took all that she had and she had bought that ointment and she begin to anoint Him. What the church world who had invited Him, Simeon the Pharisee had failed to do. That woman seeing Him despised and rejected, humiliated by the church world. She moved under that inspiration, and she did Him a service according to what He had need to be done.

She caught inspiration and then when she did that He responded to her and say thy faith have save thee. While Simeon was criticizing Him and saying if You know what kind of woman that was, You know You would never even have that woman touch You; she is a sinful woman. He say but you is a holy man. But I come in your house and you invite me, you didn't wash my feet. I come in your house, you didn't give me any kiss. I come in your house, and you didn't give me any honor and these things. And since this woman has come she hasn't ceased to do this unto Me. She was taken up with the Word. She was taken up with the Word. Something move in her heart, in that hour when the church world was rejecting the Word. And put Him aside and gave more emphasis to their own programs, something struck that woman heart.

Aren't we not living the same kind of day? Can't you really look and see Jesus Christ reveal in him? When you see Jesus Christ how do you see Him in this day? Do you see Him humiliated? Do you see Him neglected? Do you see Him rejected and cast aside? Do you see Him outside the church? Do you see Him beyond the camp? Do you see to identify with Him, you can't make any identification with out you bearing a reproach, because you have to leave the camp. You have to become unpopular to go with Him because what is popular today is the church world.

Don't you see the kind of crowds that they have. Don't you see how they have thousands and tens of thousands and they boasting and they have big great crowds. And they boasting that they have television programs over two hundreds countries. And they have satellite covering the world and they have these things. And they have affiliation with all the great politician and everything else, backing and supporting them in the great program of spreading the gospel to the nations. And don't you see the great religious leaders talking about the great audience with the Pope, and all these different things. And to be accepted by that you have to be part of the system. But to be identified with Jesus Christ you have to separate from that.

But Enoch walked with God; he was translated. Elijah was rejected by the Jezebel system. He say Lord I'm alone God say no, no, no present day ministry, that is where you're at. You feel rejected, but there is seven thousand, I'll show you a preview of

the Bride. And God pulled the veil back and he saw that there was seven thousand names, ordained to received that message in that hour.

So when you look there in the scriptures, you know you see these things and I'm using my same title, **There's God's Astronauts And Their Space Program.** And speaking a little bit about moving into position for extraction. Because II Kings 2 he was moving, from one place to another place, where it was being revealed, he had to be taken up.

He knew it was not Gilgal; he knew Gilgal was a place where he had a certain experience. You remember what happen in Gilgal? What is Gilgal in the bible? That was the first place when they cross over the Jordan. It is called the place of Christian confession. And here is where they receive circumcision. There is where God roll away the reproached of Egypt from among them. There is where they take twelve stones out of the Jordan, and they place it there, in Gilgal speaking of death and resurrection.

There is where they kept the Passover and there is where they begin to eat the old corn of the land Gilgal. Every believer have a Gilgal experience, before that catching away, you must be in Gilgal. You get what I am saying? That is a place you must come into. Because where that translation is talking place the scripture, remember we have found out under hidden communication, keeping the secret, secret. That the book has encrypted certain things, its hid and how the mystery hid in shadow and type, why? Because the acts and lives of believers was expressing God one great goal. What is Elijah life expressing here? What is the secret, Elijah's life is expressing here? A person about to change dimensions. A person chosen by God to be raptured in that age.

A person that when the rapturing time has come, they are conscious that they are getting ready to go. A person under the influence, in close association with the unseen world. A person who know the hour has arrive when the Lord was going to take him up. He knew the purpose of God for his life in that hour. He knew God didn't want to give him a lot of things to invest in the world. And go in the world and be a part of the world, and you know be a big man in the world in that hour. He know no, God have separated him from the world. God is preparing me for rapturing grace; he knows what the system is doing.

Let me give you a little background before I read II Kings 6. Giving you a little background here first to catch the scene what I am talking about, this encrypted mystery.

God know that the day, a rapture was coming. God know His plan is going to end with translation for the Church. God know that the people who coming to be raptured must be baptized first. God know He have to sanctified them people first. God know He have to give them people a new birth first. God know He have to form them in the image of the Word first.

And so God put these things in the bible, because when man fell from thought to flesh and bypassed the Word, this is the way back. That's why the first thing in the garden of Eden when man tried to invent a way to go back God rejected it.

What was the way they invented, you know? They took fig leaves and make apron; they tried to solve their own situation. Why did they go for a covering? Because something left them, they realized they could not remain the same eating from the tree of knowledge. No man could eat from the tree of knowledge and remain the same. You hear what I am saying?

Whenever as a believer you eat from the tree of knowledge something leaves you. A glory left them. You would have to watch what you eat. They were warn first, 'the day you eat from that tree you shall surely die'. Death is what? Separation from God.

They were in union with God to begin with; God and man was one. God and man had fellowship; man had eternal life, power over the earth. Man was in God's image and likeness; man had dominion.

But what happen? That partaking, of what? A perverted word, the lie, the lie, but the lie was ninety nine percent of the truth. He quote back everything God said and add it not. And one word added change the truth and it separated them from God. It broke their fellowship with God.

That's why if one Word broken took us out, we cannot get back in. Don't play you smart in this age, this is a dangerous age. Because the same way Eve represented somebody in the presence of God. And one Word, she fell from life to death is the same way in the last days, when we come back to the full Word, there'll be people live out that same thing too.

Cause remember Genesis is seed. People who is part of the reveal Word for the age. Remember the foolish virgin is part of the same cloth, not a different cloth, same cloth. Election is what called the bride, chosen and predestinated to be cut according to the pattern and the rest is what? Thrown away to be trotted under the feet of men. They not just getting it back you know, hunted down and killed, hunted down and killed.

Why? Because they fail to be in the Bride. They couldn't get there. They was part of the Church, part of the move, part of receiving the message. Part of recognizing the prophet, part of seeing the Lord descend from heaven. Part of hearing the Bridegroom come. Part of the great announcing of the coming of the Bridegroom by a messenger on earth. The thunders catching the mystery announcing what? The coming of the Lord. Part of that, part of the waking up and then it come to personal discovery about what in the vessel. Wake up to the coming of the Lord. Wake up to the voice on the earth; wake up today, it's a desperate hour, but then discover in their vessel there's no oil.

That is why I say is not the picture on the wall. Is not the picture with the prophet. Is not these things, you see that. Is not saying the Lord descending from heaven in Sunset Mountain, you see that, they see that too. Is not saying the prophet come and open, and bring the thunders and wake up the people, they get wake up too.

But after you get wake up, what? Oil, oil to put you in friends, Holy Spirit. You can't go to the Theophany without oil. Is oil people who going to their Theophany. The Holy Spirit is the first Robe here, then you're going to the next Robe. You have to change nature before you could change dimension, and because their nature wasn't change they couldn't go in.

They come up to a church life. They come to a church life, and stayed in the church life and they became settled down in the church life. They felt that they was good like everybody else, because they was religious, because they were moral. And they used that as a measuring standard. They even misinterpreted that to have the Holy Ghost. But in that hour they realize they needed something more, in that hour they realize they needed something more.

My brother, my sister may God inspire the scripture, if you watch me close I'm trying to preach the scripture. This is not me, I'm trying to preach the scripture. If you hear me speaking the scripture, the scripture is opening to you, then that's God's Word.

If I'm talking something that have no bible for it, that is a foolish man talking foolish things. But if I'm pointing you back to scripture, then you realize if you missed that you didn't fellowship with the scripture close enough. Because the scripture is God's thought and God's thoughts is God's mind. And it show you have another mind, other than God's mind and you need to let this mind that was in Christ be in you.

I come not to do my own will but the will of Him that sent me. Cain wanted to worship God but according to his will. God say, no come according to my will not your will. Don't bring what you think will satisfy Me, I will tell you what satisfy Me, you come how I tell you. That is the problem with denomination, there is a way that seem right unto a man but there is only one way provided by God for everything.

When God tell you how to dress, you dress that way, win the battle over yourself. You lost that battle you lost, because you know what you're reflecting. But when God comes with the courts of skin and you have your own fig leaf, you say leave me alone, I looking nice in this. Then you can't get redemption, just the dressing, because the first thing God did was dress them.

God is interested in how people dress. God say you and Adam did well, my your'll match.

You ever see how husband and wife like to match? You does see it when we have bethroal. They want to come in the same color, to blend with what ever. You know why? That is still Adam and Eve. Nothing against you, but I'm not telling you anything. But I'm trying to show you what you get, you getting it from somewhere. You're getting it from somewhere. And God had to dress them.

So watch this, Elijah knew the hour had arrived when God was going to take him up. Then he knew the time, plus he also knows the mode of transportation. Did the bible say by a whirlwind? The word whirlwind here mean, fire, horses of fire, and chariots of fire.

That word is a word that means fire with Theophany, the form it come in. You see how today it does look like flying saucer. They

say we see a flying saucer come, prophet say yea flying saucer going to pick you up one of these days.

You think your Hoffman head will come down and stand up there and levitate in space and pick you up. As the world says, oh God, Jesus came down. God want them to believe UFO abduct you. You get what I am saying.

Because in this day is not horse and buggy transportation. They come in horse and buggy because back there was horse and buggy. So God come in the form of transportation that was the transportation of the day. But today you don't see them in horse and chariot, and it don't have any chariot flying in the sky, because you know why, they will know that. But this is a secret catching away, this is not for them. The world will not see Me but you will see Me, I'll come to you.

The shape and they drawing it, and they say it like saucers and so on, and in their thoughts is something mechanical. In their thoughts, is something invented, by a civilization higher than them with material but it's an enmorphe, it's enmorphe.

Like he say what that cloud doing up in the sky. He say that ain't cloud that is Angels. He say what that fire there? That aren't fire that is Angels.

It little to the human eye, but you see these things don't be understood by the optic nerve. That is why he say Lord open the boy eyes. That is why they look at Jesus standing there in a glorify body, they can't see a man in a glorify body. When He break the bread and step in the next dimension, they say oh God, what is this happening here, where the Man went. He was right in the chair on that table no, He disintegrate.

Like Billy Paul, brother Branham, met him, a little boy about eleven, twelve years with his father in the field, sleeping with his cousin in the hotel room. And the Angel come in the night after the meeting to the prophet and start to talk to him. And he says, 'could my boy see You, I ask, I always want him to see You. Because you know I tell him about it, it would be nice You would allow it'. He say, 'Sure he will see Me, but not the other one'. Even there it had the one and not the other one.

So he says, he went, he put the pillow over the boy head, his son head. And he says, 'Billy you know where the face basin is in the room'? He say, 'Yes dad'. He say, 'The Angel who daddy tell

you about is right here in the room and I asked him, if He would permit you to see Him, He said its okay'. He say, 'When I take this pillow off your face you look in the direction of where the face basin is'. Leave the other one sleeping. Pull the pillow off his face and he looked.

He say he thought he was going to see something flying around, he say, he saw a Big Man standing there like this and then it turned into vapor, it turn into a midst and was gone.

Think close what I am saying. My point there, what I was making is emorphe, change form, what strikes the eye. The angel didn't die, it went from being material, to dematerializing itself.

He say is that possible, something could be solid then become a next form, gas? You does bump into that every day. How you does get rain? The sun does draw water up condense it, turn into clouds, is that right? That cloud now does become rain and so it coming from water, to vapor, to rain. You fill a bucket you put it in your fridge and your deep freeze and it come back to ice.

So water which is H_2O is two part of hydrogen and one part of oxygen and that's gases. Is that right? That's gases. So from a gas form it could come a liquid form. It could come a solid form and go back in the gas form right before you. You could hold your ice in your hand and walk with it. And you biting up that ice and you chewing up that ice. And you could drink a glass of water and then it is like vapor, it like humidity. The place hot and it cause you to sweat because it change form again.

You put it on the stove and that heat will dry it up. You had some boiling in a pot and it stay in the fire to long it disintegrate. You go back it have nothing inside of there, you get what I am saying?

Now we don't think of bodies like that, we would just think about water like that. But the one Creator who create the body, create water. And a big part of your body is water too, you know that? Petroleum light.

Your body is not just your father seed and your mother egg you know. That is in one form, that is they carry sperm and egg. But you break down sperm and egg, you get back dust of the earth in the Garden of Eden.

Because we trap in time, we think of bodies. You know in just one little form, how can we get out of this? Let me tell you, if God

don't open your understanding, Satan will hold you right there. And you see this body and you spend all your life on this body. And you trying to take care of this body and then a few months down the road is a spoon full of ashes.

You ever see cremation? Today it have crematorium all over the country. And the big two hundred and seventy-five pound man, they push him right through the fire and they bring out a little thing of ashes in a few minutes. And they carry it and they sprinkle it in the sea. Some like to sprinkle it in the sea; some like to keep him home in a little vial. And say, 'That is it eh Henry. I have you right here with me; you could stay right here with me for the rest of your life. Today is your birthday, I bring...I put some flowers next to you, here is some flowers for your birthday'. If our thought is not raised up beyond that, that is where we live and God is a million miles from that.

I trust that what I'm seeing and not saying alone could help expand your thinking a little. You see our thinking have to change. The Seven Seals came to change our thinking.

From the moment God start to condemn organization, God was saying get rid of theology, get rid of Baptist thing, get rid of that. From the time God start to wash you with the washing of the water of the Word and brings us through a thinking man filter, God is separating us from that thing.

Why? Then now He is bringing the Word and many would misunderstand the seventh angel by the way, he would do what? Teach the scriptures.

And this message is to be received by a certain qualify group in a certain way. Not in a way to conform you to ritual and routine but in a way to make you conscious of who you are. And see who God is and begin to walk under the influence of that God and you think of life different.

Well here Elijah, the hour had come, he knew the Lord was going to take him. He knew the time that that was going to happen. Do you know the Lord is going to take you? In this hour? Ninety-eight percent of you fight up in your mind whether you are going. One hard message and you are not sure you going again, that's right.

And where you live so close still under condemnation, you haven't learn to live under the achievement of the atonement. So

you still living in a humanistic way, relating, trying to get this man perfected for God. This man could never get perfected to go to God, this is not the man God is dealing with.

When Satan hold you thinking, you could dress up this man and make him look like a church man. You would train this man and make him talk like a church man and a church woman. And Satan making you feel you doing good, you improving, you improving. You have more cloth now on this man, you get what I am saying?

You don't need more cloth on that man; you need more Word on the next man inside. You need more of God's Spirit on the next man inside.

You know when ministers is...when ministers sometimes they get there and all they could see is the church body. And then they satisfied they have more cloth on them, they preach them to wearing more cloth.

You find you don't have enough cloth on you, so your dress look tight on you, it don't have enough pleats on it. But they don't have a Word, to bring the next man through the thinking man's filter and get the mind of Christ in the next man. This man, he is born condemned, he was condemned from the day he born. And when God come to bring the New Birth, God didn't even get to this man, God bypassed this man. The man God change in the New Birth wasn't this man at all, was the man inside. And He leave you still with this man, still getting older, still decaying, still subject to sin and sickness, still everyday fighting you.

It show you where you live. Where you live is where, in other words is where you're thought is. Because your life is only the expression of the way you think. You can't live more than how you're thinking.

Because faith is thoughts. You don't work up into faith you see something in the Word. You see the plan of God; you see the way to approach God; you see where to come God's provided way. You see what you need to tie too, and because you know that, when Satan comes, you can point him to where you tie. And you know he can't battle that because that's the grounds upon which God accepts you.

What does make you can't love your brother and sister? You know what? Because your thoughts can't get up beyond human

flesh and see Spirit behind a person's life. You get what I am saying.

You say she do me that, no she didn't do you that, she might be weak so the devil use her to get at you. When God could raise you up there, it does be nice you know. You don't be trying now to get holy and feel holy and then you go through like you not feeling holy. No, no, you does know you're walking with Him. You does know He's right here, with you and in you.

It's not a psychology thing, the Son of God is being revealed in you. Christ in you is the hope of glory. That gene of God that God put in you that was sealed up under an old birth. And God have to break the seals of that old birth. The seals of death and sin around your life and quicken that seed and bring the Christ out.

Then when you begin to live there, is not you that live. The life I live now is not I that liveth but Christ that liveth in me. The life I live, I live by the faith of the Son of God. You begin to live and walk there conscious now.

That's the man that is begins to be prepared to go in the rapture. Because until that man get quicken, we only know one world, this world. Because that is the man who has the sense to contact the other world, the unseen world. Outside that New Birth you walk by sight. But to walk by faith, faith is the New Birth. That's why you don't add faith, you add to your faith, you become quicken, you become quicken. Something wake up in you, you start to see different. You say my goodness I going to church all my years, but you begin to see something now. I begin to get a hold of something.

When you get that friends, you should be the most grateful person there is. Because if that is real and that stays with you, you hear how you pray. You watch how you treat people; you see there is a restraining power in your life; you can't do this and you can't do that; you can't do this, what other people could do you can't do. And not just you can't do, you don't even want to do neither. Because you seeing look how they do that, they don't know if you sow to the flesh you will reap corruption. They so blind they don't even have understanding. They think they get away with something; they don't understand laws.

Say but you wake up to realize no, life is certain laws. There's a law of the Spirit of life. And there is a law of sin and death, them is

laws that govern people, see? Is where you feeding from and where you're fellowship is.

He knew the hour had arrived when the Lord was going to take him up. We must come to that place, we must come to that place this morning. That why the teaching on the church age and the opening of the mystery of the Word. Look Enoch went up, it tell you when he went up. Look Elijah went up, it tell you when he went up. Look Jesus went up it tell you when he went up and I could take every one of them and show you in the scripture that all type this hour.

When the Son of Man ministry came to an end, that is entered a resurrection. Son of Man ministry was three pulls, you understand what I am saying? Son of Man ministry was written in that everlasting sign of seven peaks. So you tell me, you see Son of Man ministry start in 1946, and reach two third of the third pull in 1965. And the last part is when the squeeze come. You get what I am saying?

Then Elijah in a time when Ahab and Jezebel was in union, at evening time when they prepare the altar. In a time when Jezebel had a plan to hunt down the elect and persecute him, that's right. It was in that time.

God say no, Jezebel ain't getting them; I will get them before Jezebel could get them. He say if God would send his Bride through this again, he say something wrong. That's why we don't go through that because of the blood, we receive the blood, the foolish virgins have to go through the tribulation to be purified because they not under the blood.

He say will God take all that judgment upon Himself and then put His Bride through that same thing afterwards, it don't make sense.

Then Enoch the seventh from the first Adam, a type of the seventh from the second Adam. Six times and he died and he died, and he died, but the seventh and he was not, exactly again typing the scriptures. So all type this hour that we should know this is the hour it has arrived when the Lord is fixing to take us out.

We see Him with that revelation, we see Him went to Bethel. Bethel was the place, Jacob ladder the gate to heaven. God at the top and man at the bottom.

Any man who receive circumcision and start to eat the old corn, does now have to climb that ladder and come up to where God is, is that right? Sure.

Jericho was the place, the Captain came down, the intelligence come down on the body and gave them a new science of warfare; the body now was moving by the head. Jericho was where seven blast of the trumpet on the seventh day brought the elect out. Is that right?

And any man climb them ladder come right up to that seventh day when them seventh blast open a mystery, is that right? Come right up in the seventh day. And then the Holy Spirit, you must cross Jordan to get into the Holy Spirit. To get into the captain duty the eternal Church Age, into the King's chamber. Then he had to cross Jordan, and Jordan was what? The breaking of them Seals, come a man, a man coming into his inheritance.

God was moving the elect and He knew the time and he knew the mode of transport. Doesn't it help you when you're coming to church and you know, how you are arriving here, especially if you don't have your own transport.

How many does know they need a ride sometimes and they say am, they have to get in place where the transport is. Or they have to make some communication and confirm that, you coming to church today. Tell me quick because other than that I'll have to travel. He say, no wait I'm coming, wait the same place.

Your transporter and you have communication, and that transport go be to bring you to your destination, right in the presence of God and among the saints, hallelujah! Bring you to a place where the Holy Ghost is.

You does do that, you does do that every day when you coming. And you know when you miss your transport, you miss it. And when you really want to be here, if you love to be in the presence of God. And you love to be among the redeem, then you put yourself in place for transport; is that right? That's right, especially if you know your transporter is always on time and you could get left behind. He knew the destination also.

Now I'm taking you down some things Elijah knew, the one who had to go. He wasn't just going to church, he was just serving God. He knew the hour; he knew the time; he knew the mode of transport; he knew the destination that that expected transport was

going to take him too. He knew the place where he had to rendezvous, where he had to meet. He knew the extraction point; he say I can't stay; I watching my time table. I can't stay under circumcision, I done get circumcised already time to move on. I come to Bethel, I meet the Angels, I see the way, I going with my ladder. He come to Jericho, I under the intelligence, amen. I hear a certain blast of the Trumpet on the seventh day. He's in the mystery, He's coming. Amen.

Then you know, I have to come to total separation now, Jordan total separation. To go here, I have to cut all ties, everything, total separation, and then he's coming. And watch he's not coming down to that dry you know, when he reach that place there's a power inside you to open a way. There's a power inside of you to open a way.

You don't come through Gilgal, Bethel and Jericho and don't have power friends, Hallelujah! The lessons and the experience at Gilgal, and Jericho and Bethel, it gets you ready to cross Jordan. When you come to cross Jordan you have something inside of you to open a way to go over.

Because they not just walking, stop certain places and the Lord say keep on moving on. In other words the same God who was leading Israel from Egypt to Canaan, know how long to hold them in a certain place that was designed to teach them certain lessons. Because it was a people in journey to an inheritance, in a land that they have never been too. But a land that they should have been born into to begin with. But they born and get trap in Egypt and come a slave, but a prophet came and brought deliverance and broke the bondage from around them. And then they raise up now to follow under the leadership of the Pillar of Fire, under the message of a prophet.

But they have junctions in their journey and God was ministering and teaching them, so they could come in that land. To know how to live in that land when they come in that land. It was a land that their father's had lived in, yes sir!

Well the same way the same God, that's why when we say Third Exodus Assembly, we don't talk about Longdenville you know. We does talk real gift of God; we does talk inside life; we does talk the sword of the Lord is of Gideon. We does talk those Seven Trumpets, why? Because that is the places the inner man does

travel on the road and that is the road. And that is why we say sing that song back here. Sing, *Can't You Hear Your Theophany Calling*, why? There are places we stop and fellowship, where God reveals things along the way, because it was a journey in the Word.

And you come through that journey in the Word, you know, when is the adoption time. You know when the capping off time. You know when the extracting time is come, why? Because the same way you back to the crave, when you was in the world, that make you look out there, where God is? Papa God where are You? Who am I, what am I doing here? And that same crave that birth you into His presence, that is the same thing when you come in this stage to go to the next body now. That one bring you to the new birth, this one bring you to the new body.

But you see if you didn't have one of those that brought you to a new birth, when you coming to the new body, is like it is outside thing, you have to try to bring to convince your self with. But when the inner man come through them places, he's only going back and drawing on when God already dealt with him. And pass him and reviewing and staying there, and say Lord you show me that here. And he's keeping fellowshiping with those things because all those things, as it grows from season to season, it push out more things.

Because there was a season that God discover to you the body of Word for the Bride part. The body of Word to bring you to the translation.

That's why Abraham and Sarah reveal the change of body. Enoch reveals changing dimensions. Elijah brother, he know the extraction point, he know when the angels coming; he's walking and talking; he know the very day; he know the rendezvous. He's in close communication with the unseen world. Jesus show the glorified body, all of these things is laid out.

Rebekah watering the beast that packing her to the unseen Bridegroom, which Eliezer brought. All those are the mysteries of coming, from the earthly journey to the eternal destination, how it getting you there.

And when the time come and you have to move in those things and travel in those things. When the traveling time comes God open the traveling Word; He open up the traveling Word.

It have the part where you trying to make flight arrangement. You want to get token in your hand to make sure your price pay. You want to make sure you starting to pack the right things, that you will need for the journey. But then your time come, you have all that, you have it pack, you have it there and your thoughts on a different level now.

When you by your gate you don't be studying to pack. You don't be trying to get a ticket when you're by the gate. No, no, no, the reason you by the gate you getting ready to board. You have all that, that's why you reach that far. You understand what I am saying? You start to think about your arrival, you start to think about arrival time, you starting to think of the flight. And, because you realize your departure come down to just minutes. Your departure time comes down to just minutes, because by the gate you does have to leave friends and family, you get what I am saying?

All who not going on that trip, you done leave them already. You done wave your goodbye to them already. Any talk with them, you talking from a next place. They have to talk on a communication wavelength, you have to talk to them by.

When they around the house go back home clean up. They see well you wouldn't be in that bed there tonight. You not coming home this evening. They not expecting you to come home this evening. They expect you to call from when you arrived.

Their thoughts different; you can't live where your thoughts are not; it does come as a revelation first; the revelation will bring action, faith is what does produce works; works is faith expressed. But faith is when it starts to be revealed to you. When the seed of promise fall in the bedding ground, and it begin to grow, it take a hold inside of there. Then no circumstance is being considered because once that takes root inside of you, you already now.

Like a woman having a baby, from the time that seed come with that egg, brother she is thinking a different level. All that time she passing, think she's desiring a child, desiring a child, desiring a child. Go by the doctor, hope the doctor could help, hope God could bless them and different things, but when that happen there she in every little Nursery Store. The baby ain't coming but she buying bootie, she buying this, she buying the other. She's seeing maternity dress when she going through fashion, she seeing the

type of robe that somebody in her condition does wear, before that, she not interested in that, you get what I'm saying?

But when conception takes place it puts her thoughts in another level. She more careful now, she get particular what ever she eating now, because why? The doctor saying, now to have the child born healthy and strong, make sure you have enough calcium. You have to get your extra things here and he being to tell her what is best for her. Because now she can't eat like somebody else, who eating what they eating without pregnancy.

Seed conceived make her a different woman, though she's like woman, just like everybody else. You get what I am saying. You going to church like a lot of church people going to church. But when you get conceived, when the Word quicken inside of you, you ain't just going to church. You're thinking and operating on a different level.

That rapture couldn't take place until judgment was first pronounced on Ahab and Jezebel. Is judgment pronounced on Ahab and Jezebel? That rapture couldn't take place, until the Word was restored back, at the evening sacrifice, and the heart of the children turn back to the faith of the fathers. Has that taken place?

When that ready to take place, Jezebel is in a different move, she is plotting the persecution and the destruction of the elect. When that rapture is to take place, is that right?

And while she doing that Elijah crying out before God. God tell Elijah, He say don't bother with she, by my Word I'm speaking to you, Jehu shall be anointed. He say Jehu shall be anointed, the Jehu system had to be anointed to destroy the Jezebel system. How many know the Jehu system is anointed to destroy the Jezebel system in this day? That's right.

How I'm trying to go down with you slow, but think. It's something encrypted, it is something seal up there. But watch how these details and these places, I'm trying to point to you in that very hour, that Jezebel and Ahab, that Vatican and Washington conspiracy. To kill and take possession of land and resources, that was not theirs was the order of the day, is that right? That was the order of the day.

They was on a power trip, that's right. They wanted Naboth's vineyard. They wanted possession that was not theirs; they

deceived the people, at the hand of deception was a plan to kill and take possession. And the same one that's being raptured is the same one that revealed them and uncovered them. Same one that bring judgment upon them, is that right?

Remember the Bride only says what was already said by the prophet. And what the prophet already said in the Word, and she is the final voice of the final age. And she is only reiterating the very same message. As it is coming from negative to positive, has coming to pass. Elijah represented the translated group, represented the prophet, represent the Bride.

Elijah life is preplanned by God. You believe Elijah was predestinated to live in that age? You believe when God was fixing the age and then going to have an Ahab and a Jezebel. Know it going to have a Pagan power that infiltrate Israel, that get into the throne, that destroy the true faith of God. That bring the country into idolatry and lead them into apostasy. That God is going to put the elect in that age that is going to be translated.

How many believe your life is pre-planned? How many believe your birth is pre-planned? Did Elijah end up getting translated or God predestinated him to be translated? Is the elect life's in the last age, predestinated for translation?

There is a people who is born into the earth from their mother's womb, to be we who are alive and remain, that we shall not all sleep, is such a people? Did the wise virgins wake up under the message and went in with the Bridegroom alive? Mathew 25 the Seventh Seal, is Mathew 24 the Seals? And after the Sixth Seal he start to speak parable about His coming. And in Mathew 25 all them parables about His coming.

Elijah didn't always know he was going to be raptured, you know that? But there was a season it was revealed to him. He wanted to go into heaven by death. But God reveal to him, you not to go by death. You call to go without death.

What am I trying to say? I am trying to bring to you, is not, boy I don't know if I going and I don't know if you could know. I'm trying to blow all that out of you and show you the Bible don't talk so. I'm trying to show you the Bible shows you, you are chosen to go. Your life will be planned. You are ordained to go a certain time and when the hour come, God gives revelation. Regardless Jezebel have a plan right now to bring squeeze and persecution.

God not talking that because God know is the Lord taking you up. And I could get you faster than she could get to you. And when she thinks she plans on you, I done have Jehu anointed to deal with she, to bring your word to pass.

God have His space program. God plan in Enoch time was to take man into space. God plan in Elijah time was to take man into space. God plan at the end of the son of man ministry in Jesus time was to take man into space. God plan in this hour is to take man into space.

That's why this is a space conscious age. That's why this is an astronaut age. It had a time this age wasn't so, this age get so after God send a prophet. How many knows that? Is when God send a prophet this age get so, why? You come into the eagle age. The first one that land on the moon they called him the Eagle. They say the Eagle has landed. The first man went into space was John Glenn. Was John the Eagle, that's right!

It's God's program, this is God's program to move man. It was God program to move man from Egypt where they were born in slavery to bring them to Canaan. He was the author and the finisher.

That's why when they was stopping short He say there remained yet very much land, don't set down there and He start to point out the land that was yet to be taken, why? Be confident that God who begin the good work will perform it even until that day. You are His workmanship created unto good works in Christ Jesus. It is God was making the man; it is God was making the woman from the feet all the way to the head. Is God doing it.

That's why it's in God's Word because God Word is His thoughts express. And if God didn't want anybody to know about a Rapture, He wouldn't have put it in the Bible. He wouldn't have put Elijah in the Bible. He wouldn't have put how their life end. He wouldn't have put Abraham in a day like Sodom and a man coming back young. And He wouldn't have put one in the seventh age being translated without seeing death. He wouldn't have put one in the days of Ahab and Jezebel, there when the bottomless pit is open. When the people of God by that false prophetess Jezebel is taken into apostasy, into paganism. Like the Catholic Church take all the Protestants into apostasy.

God put Elijah being translated there. In the ministry of the Son of Man after the preaching to the lost. God put the resurrection, the translation there. And then prove to us how that same ministry come from healing, discernment, Spoken Word, the opening of the Word. And reveal and open even the last part to us, and show us what is to follow at the end of this message, you get me?

If that is not revealed to you, you going to like church and you're going to get acclimatized to church. And you become adapted to church services. But if this is revealed to you, you know the hour is come that all of these things is happening. Because it is true God is moving a people out. And then it would make you watch, those who's life is reflecting, that they understand, that the time is come when the elect is to be taken up into Heaven by a whirlwind.

But there is three Heavens. God don't send transport to take you up in the first Heaven and the second Heaven. The people in the bible God send transport for, they didn't find them in any planet. Neither they didn't just go up in the clouds and come back down. The people that God took up they went beyond that. Is that right? Oh my!

The prophet say we would be changed faster than the Angels came. The Angels come with a certain amount of speed, you know. And we would be changed faster than the Angels came.

I don't know if I could find that, like to read something for you. I was going and preach something else this morning, you know. I thought I was going to speak on "My Celestial Body, That I Reflect My Angel". To show you that this celestial body, this Theophany is not just a body with nose and mouth and hand and foot, is also an Angel, your Angel.

Listen, the Lord wants to keep you here a little bit today. I was getting ready to close. On "The Master Piece", he says, 'So we realize that we're here in a negative form. And as long as there is a negative, there has to be a positive. There cannot be a negative with out a positive, because it's because of the positive that makes the negative'.

Now when you hear the prophet talking these things, you don't just kind of question your mind you know. You remember especially after 1960, when you hear him talking them things, he went over in that land. He went in that body and the mystery is open to him.

He will tell you now where Heaven is. He will tell you how to get to Heaven, because he was taken there. Remember he didn't pray to go there you know. He didn't ask to go there you know. God, he say, 'I never ask God to create squirrels'. He say, 'He tell me to speak it'. He say, 'I never ask Him to speak to the storms, he told me to speak to the storm'. He said, 'Those things were by the sovereignty of God'. 'I never ask Him to raise the fish, He came and say speak to the fish'. 'I never ask Him to speak the tumor out of my wife, we pray and pray and pray, I say honey go and take the operation because we don't have the enough faith'. He say, 'And He told me speak it'. He say, 'These things came by the sovereignty of God'.

I am so glad that I know a man that went to Heaven and come back. I am so glad a man didn't just come and tell me about bob hair and short pants and different things. But a man tells us how you does get your first Robe, and then how those who get the first Robe, they go into the second Robe, and then they come back and pick up the third Robe. I am so glad for that.

Because in this weary age, in this gloomy age, in this dreary age, in this age when you see hell being created on earth. In this age when we see the evil men that is sitting in the seat of power, running as fore runners for the personification of evil himself, Lucifer to be enthroned as God over this age. That Lucifer and his angels have build their Eden and he is to be enthroned as God, and worshipped as God and they are feeding upon a deceived world, where all those names that was not in the Book of Life has been deceived.

He deceived the whole world Revelation 12: 9 because they didn't love the truth, God gave them a strong delusion to believe the lie and be damned by it. It's kingdom of darkness, it's a complete perversion of lies, it's total death, it's an insane age, a black out age, hell created on the earth. When you're in an age like that, and you see Angels appear you could never forget that, you could never for get that.

Now let me say this. You may say if I see it I would have believed it more. Ah, ah, the form that you get it in you can't disbelieve. You get it in the next form first, you could have disbelieved it. They would have carry you for an eye test and prove you're defective. They would have proved it was a hallucination

you had from your mind. They would have given you a brain scan. And they would have tell you, you have a psychological disorder in your personality, after a psychiatrist analysis you, and start to explain to you that that does happen to people.

And then you does stand up there questioning, but the form you get it in. After they use everything to examine it and they themselves have to authenticate it and put the lights from the lens. And then after the revelation come behind and you see that that Light, did everything that Jesus did in the Bible. And Moses and them did, and Paul did and that same one come and do the same and open the same Word. You have it in a form that it is impossible to doubt. You get what I am saying?

And then not only that remember I call the man here. I didn't call the name of the man you know. I called the representation it showed, that you are part of that economy, by predestination. It have something in you, know I getting revelation from the Word, that is who God is.

When I look in the bible I see an Angel come to a prophet, in the first Exodus. I see the same angel come to another prophet, in the second Exodus and I see another Angel come, in the third Exodus. And what the same Angel did in the first Exodus and the second Exodus, that same Angel doing the same thing and that prophet now is revealing the same things by the Bible.

And then do it before science and say examine it. That was proof that was for us not to laugh at science you know, no, no. That happened so we could believe the prophet, because if science had a way to explain it away from you, you would have doubt the prophet. But God made science confirm after the Spirit vindicate it and prove it from the Bible. God make science come now and endorse it too.

God make the medical world come and authenticate the dead really raise. The baby died early in the morning, here next day the baby raised from the dead and they had to authenticate it. And God do these things so you could believe the witness.

Why did God gave Moses signs. Moses say Lord they wouldn't believe me. He say I'll do things they will have to believe you.

But that didn't put them in the promise land you know. That help them to believe the messenger. Because when the messenger come and start to tell us now, and the Rapture is going to take

place between six and nine, one day. And so and so in the scripture and he start to go in the Bible and show us and this is the age for it. And will be taken away and God take him to Heaven and bring him back. Then God is saying people get ready. We are leaving here and you have to have faith in that.

When you see people preparing friend, to leave. You know why I does preach so, I don't see people preparing to leave. I does see people enjoy these things when they hearing it and it stimulating their mind and they seeing revelation flashing with all kind of things in the Bible.

But I does see somehow it keep the wheat now, and go home and make a loaf of Bread and you and Naomi eat. And them tomorrow you come and you still have piece of that Bread and you eat again. That is what I am talking about. You're in the field a handful will be thrown on purpose, but how to keep it and to keep feeding on it, that is the thing.

So, 'we are here...he says... In a negative form, as long as there is a negative there has got to be a positive. There cannot be a negative without a positive, because it's because of the positive that makes the negative. Like you had a negative picture of some object. There has to be an object somewhere or it...to strike... the light strike that lens, or there wouldn't be any negative.

So when we see that our life here is in the negative and knowing that we're in the image of some life somewhere, then we know that there is a positive somewhere that the light has struck, and it's reflected something here on earth. And we are only that reflection. The genuine object is somewhere. If that isn't, I'm the worst deceived man in the world'. He says, 'if that isn't so I'm the worst deceived man in the world; I've spend my life in vain'. He say, 'But I know beyond a shadow of a doubt its there! And that's why we're here'.

This life, he say, 'you see a tree struggling to live, there's a land where a tree isn't struggling to live'.

Let me say this to you, he's describing a next universe that this one is a mirror of. Because why did the bible say the things you see here, will understand the things you can't see there? The things that you see here, is to reflect the things that is there. The God you know, He's a man because you're a man. And when you come around this Word you know there is nothing higher than a

man. And the reason God never created anything after He made man because man reflected the One that was doing the creating.

Recently I was telling you about, you know I started to look at certain things. And sometimes its strange the way God does carry you places, to certain things because the way you make up. Everybody make up in a certain way and I read something and when I read that it really struck me and I want to read something to you, about it. And it was something, an experiment that the scientist back in World War 2 was doing. They say Einstein and them was involved in, and this experiment was taking place in Philadelphia. It is better known as the Philadelphia experiment. But it was a mission that the US Navy had, that they called Project Rainbow. I'm just going to read the article, and little parts of it at least.

It say, July 1943 the destroyer U.S.S. Elkridge, and this is a battle ship, pulled into the Delaware Bay area, for a United States Naval experiment that involved the task of making the ship invisible. The project official name is Project Rainbow, but was nicknamed and more commonly known as the Philadelphia Experiment”.

They even make a movie off of that same thing, because it was a big hush, hush thing that they kind of shut down and keep top secret.

They say much have been written and speculated about the legendary experiment into invisibility. But sorting facts from friction is a near impossible task, especially with the recent influx, of misinformation and deliberate disinformation, that have been spread by those connected to the U.S. Intelligence community and professional skeptics.

There is much controversy over what happened, but one thing is for sure. For some reason, soon after the test was completed, a massive blanket of secrecy and denial was placed over what happened in Delaware Bay.

It is thought that a huge scientific breakthrough was made, and the ship was accurately transported over space and time. Disappearing in Philadelphia, Pennsylvania and reappearing in Norfolk, Virginia, which is 600 kilometers away. Whatever did happen is still not known.

Now they had this big massive battle ship in the Ocean right there in the Bay. And is war and a lot of navy ship was being destroyed; you know you transporting wounded soldiers, you carrying supplies, you carrying missiles, ammunition for them in the war and you're using your navy transport and these things.

Well the Germans, remember this War was fought all in Europe all over the world, is a World War. And so many times they lost a lot of ships, lost a lot of men, lost a lot of equipment, and it was becoming a real set back for them in achieving any head way in the War.

So they realized now, if we can only make our ships invisible that it can go through and transport these things. And they decided to experiment.

I guess they consult the scientist and the scientist say this could be done. Magician does use their illusion and he can make things appear and disappear. But they dealing with science, they not dealing with magic. And they know that we can do certain things to make this thing invisible.

The main problem with these theories though, it does'nt explain how the U.S.S. Eldridge was seen in Norfolk, Virginia by the civilian crew of the SS Andrew 1st Furuseth. When the ship disappeared from view in Philadelphia in a space of only about fifteen minutes.

When the ship disappeared it end up six hundred kilometers away and other people now in the other battle ship in Norfolk, Virginia see this ship. Because you know them big ship have the name and everything there, they see the ship there in the water.

The most interesting theory about the Philadelphia experiment is that the destroyer did in fact disappear and was teleported over space and time.

Like some of you done sit down there and you may be wondering what kind of crazy thing is this, could this happen? God move Phillip. God move Elijah many times before He take him into the third heaven.

Remember Obadiah in the bible, he tell Elijah, he say Elijah go and tell Ahab I'm here. He say go and tell Ahab I'm here, you want Ahab kill me. When Ahab come here and Ahab don't see you, he say because they combing every mountain, every valley,

every brook, ever place to find you, they can't find you. You is a man does appear and disappear.

Remember them same sons of the prophet who talking about the Lord, will take up Elijah. They went back looking for him, to see if is on a mountain he get transported or some other place. And Elisha say what all your gone looking for? This time is not mountains and valleys this time is third Heaven he gone. Next time he is due to come back is when he is appearing to Jesus, when the Messiah come. And after that the next time it would be after the Bride taken away at the end of the Church Age, in the last half of the seventieth week. Don't go and look for him, you not going to find him. Because he ain't gone on no mountain anywhere, he gone in a next dimension. Elijah used to have that all the time what Phillip had. You does read your bible? How many know that is in the bible?

1989 I preached a message called, The Evolution Of The Communication System, and The Opening Up Of The Fourth Dimension To The Mind Age and preached Images And Voices Now But Then Our Bodies, and show how science can send there image to time zones at the speed of light.

Over into tomorrow, today is Sunday, some place is Monday, some place is Saturday. And where is Saturday if the service is televised live it would go back into Saturday and it will go over into Monday, though it's happening here in Sunday.

And because they send it in the speed of light it will break time zones and go into tomorrow which is the future and go back into the past, which is yesterday.

And they know if we could send your body, if we could send your image and the people can see your image. Do we see the images of people through television? Can you go on CNN and see around the world in five minutes? That's right.

What's happens here can be seen instantaneously, even though sea and land and mountains and oceans and rivers, separate you.

How you does stay here and see cricket in Australia? When they bowling that ball right away. And then somebody in China if they turn to that same thing, they see the same thing at the same time. And then some body outside the Oval in Australia can't see it.

The television is not manufacturing a picture. They only channeling it into a circuit, by an instrument that can catch... that

they design to catch the image because you have nothing in your body, this sex born body to pick it up, had you been in your Theopany you would have been able to pick it up.

I wonder if you understand the point I'm making? The point I'm making is, how you could be doing something here, and people tens of thousands of miles in all different parts of the world can see it right how we see it here. The television does do that you know. That removes distance and time by the speed.

Let me come down a little bit for you. If, like Trinidad small, so we don't think that way, if we're in a bigger country like in Europe or America and you going from New York to Los Angeles, that is from Coast to Coast, East Coast to West Coast. And you are traveling in a motorcar leaving New York your destination is Los Angeles; you're making a journey. Another person making that journey on bicycle. Another person making that journey in a small Dash-8 plane and another person making that same thing in a super-sonic jet.

You have four different people in the same dimension but each one traveling at different speeds, each one leaving the place at the same time. But depends on which transportation you have it allows you to cover the distance at a faster speed. So the man in the super sonic jet one of the F-18 or something brother choo, next thing he drops in L. A. and he sits down there. And you now getting out of the suburbs of New York. You in your car now trying to fight the traffic to try to find your highway to come. And you all leave at the same time.

But that one speed by the time he arrive the amount of things he could do, in other words he come like in the future to you already. Yet you all was here and each of you look at your watch say ten past one, ten past one, ten past one, ten past one.

At twenty-five past one, the one with the super sonic jet in Los Angeles. And fifteen minutes the one in the bicycle, he ain't get out of New York yet, you get what I am saying.

When they get now into a next dimension. He says Heaven is here, is another dimension faster than here. When you break through.

Now the man who coming there by the time he come in, he say I will never want to make this journey in my life again. He's worn out, he's tired he say take me to a bed, and he's looking for a place

to lay down. The other person who make that so quick, he's right there, the speed.

This thing now, they say the most interesting theory about this Philadelphia Experiment, is that the destroyer did in fact disappear and was teleported across space and time. Supposedly, there was a great number of ingenious scientists including Telsa and Einstein taking part in the experiment.

The theory is that light has to be bent around the ship to make it invisible. To accomplish this, the Navy wrapped the ship's circumference in wire and passed a measured current through it. This caused a huge oscillating magnet to form a magnetic field around the ship, not only bending the light, but space and time as well. The physics of the experiment are reminiscent of Einstein's Unified Field Theory that once you bend light, you are also unwittingly bending space and time as well.

Now we had a prophet that tell us when you are going to Heaven, he changed the concept of Heaven. The scientist in the world they still are trying to exploit the second Heaven. For years since the Wright brothers went up into Heaven, the first Heaven, the clouds. And then science evolve from where the Wright brothers, who started all the way until man land on the moon and now they going to mission Mars.

They are into the solar systems not just in the clouds. Your first Heaven is the clouds. Your second Heaven is the solar systems, the planets. The third Heaven is beyond that, its another world, its another dimension.

Science they know the first two, they hear testimonies of people who talk about, they have near death experience and they went into them places.

Science take a grain of salt and they say well if that is so, the possibility exist because we discover the fourth dimension. Remember is science discover that you know. A key was given them to open the pit.

Remember when they open the bottomless pit, by a key that's a key of knowledge you know. That is a way to bring invisible things visible. And when that come over in the world it make the people insane, it brings an insane world. It bring a world where people become more materialistic. It bring a world where people

don't want to go to church anymore. They could sit down home and watch TV, a TV Evangelist.

It bring them home where I love Lucy was keeping them from going to church on Wednesday night. It bring them into a world where every bit of pornography and every bit of evil. And these things can flow right into their living room, right into their bedroom and everything else.

Science open a way to bring the kind of demons in people's lifetime that they never get in contact with. It put them demon at a click. It put them in touch with them demons at a click.

These things comes, like as the prophet say. He say, 'what make you feel to scream and shout'. He say, 'you're bumping into the Angels and you don't know'.

These things we're seeing it every day. We touching it, we bumping into it and yet our minds can't be elevated sufficiently, to conceptualize what actually we are dealing with. And what they have gotten a hold of and what kind of effect this have upon a generation.

And because of that the effect of the message, it is being destroyed so rapidly, upon the lives of so many people, you know that?

Because people who would have been separated from the world, now they can't do without the world. Now they start to enjoy the world and sometimes enjoy it in a way, they can't free themselves from it.

And some people trying to come out of things that they let get so deep into them and they find they can't come out of it. They come like an alcoholic to it, a drug addict to it. So they can't free their mind, they can't free their spirit from it. And then they start to learn the power of image and voice, of letting it into the subconscious.

Women does just have to see a magazine sometimes, see a picture and their dressing change, their hair style change, their body language change, their thought change, their attitude change. You think is just an image? It come with influence too, not just image, it come with influence, because why? It's a reflection of a being, it's a reflection of a being and is put there in a way to entice and seduce.

It put there in a way that it is inviting, it is attractive. It put there in a way to stir your curiosity. It put there in a way to make you seek knowledge.

Was Eve seeking knowledge? Was she curious to know that knowledge? The problem was the one who was teaching her that knowledge. The problem was the one who was teaching her that knowledge, the source she was getting it from.

To leave here all them things have to cut. The soul has to be free. The soul have to be free. The thinking has to be filtered. The taste on the inside has to be Holy.

And it takes revelation to do that. The revelation that gives you discernment, you see what that is, you understand the working of the evil one, by the things he bring out to hypnotize. It had a hypnotic spell to it. It grips the mind.

You ever see people get locked into something? And you start to gape, that is when conception taking place. You ever see people get excited under something? That is when the sensation start to get strong, you're being seduced.

Say it the mind is the gate to the soul; the mind is the spiritual womb. Where the seed comes in, conception takes place down in the heart.

Elijah, brother he was caught in some of that, he was moving into Rapture. He was moving into a place to be taken up. He say the Lord tell me time to move from here, I learn my lesson there. Lord say time to move from here. I learn my lesson here.

He was making progress. Every time he make a move, he say the Lord tell me to move from here now. The Lord tell me next step, something more I have to learn next place. You get what I am saying? This is a conscious thing friends.

The first time this experiment was undertaken, the ship didn't completely disappear and an imprint of the haul could be seen sitting in the water. The second time the ship totally disappear in a green fog and was sighted in Norfolk Virginia. A haunting fact is when the ship reappear, the crew were all in a state of disorientation. Some were mentally ill while other crew men didn't even return.

You see they moved through time and space. Is like if there was a door that link Philadelphia with Virginia. Now it have highway link that eh. You understand what I mean? It have highway link

Port of Spain and San Fernando. It have highway link Port Of Spain and Arima, you know that. All right!

Construct engineer build road, and they transport people at certain speeds, and they could anticipate what time of the day they could get you to your certain destination. And when you want a faster route it have Priority route. You get special privileges to travel on that route, you bypass that traffic and you get fast.

You think it have things here in the spiritual? Could it have anything in the natural that it don't have in the spiritual? What kind of universe you live in? It have things in the natural that not in the spiritual?

Everything that here come by an influence. It only have two influence, two trees and one tree does pervert the other tree. It's a perversion of the other tree, you get that? Anything Satan coming with is not original. That is the point I'm making.

The point I'm making is, Elijah know where he's going, he know what transportation he need to get there.

What if you going and you have a ticket to go to the United States. And you get up there, your family say we will be there in JFK to meet you six o'clock when you land this evening. You give them flight number, American Airlines, so and so and so, or BWEE what ever flight you on and they're going to be there to pick you up.

And all of a sudden you see a man pull up there with a big long bus, he say all for America lets go? Right away you say what happen, the plane is out in the Tarmac somewhere. He say no, no this is what we going in.

Right away you know this can't carry me where I going. You know this transportation is inadequate for that destination. It can't make that destination. You expect to see something taking you up into Heaven, to that destination where you're going.

I think God giving you a little grace, for some of you to make it uncomplicated. Because Philip was here and next minute two hundred miles, he show up right there. And the eunuch and him was in the water standing together, and both of them come out the water wet. And the eunuch saying wait until my wife hear this, wait until or the queen hear this. Now Ethiopia is going to have a revival, thank God the message is going to be here in a while and he look there and Phillip wasn't there.

The Bible says he saw him no more. Philip disappear, just like Elijah and Elisha right there, two living men. Yet, they went not like up in the sky somewhere. Cause the reason I want to get to II Kings was when he say Lord, open the boy's eyes and the boy's eyes open, he saw Angels and chariots of fire around him.

The Angels and chariots of fire that come to get him didn't come down from the sky somewhere. They come from right in that world to this world, and take him back to that world, because they was there with him all the time. Because Elisha learn that from Elijah. Elisha was there when he saw Angels and chariots of fire in a next dimension.

Why do you think God send the prophet beyond the curtain of time? Why didn't He send Luther? Luther didn't have nobody go in the rapture in that age, rapture is not for that age. Why He didn't send Wesley? Why he didn't send Wesley beyond the curtain of time?

For the people who getting ready to go God start to change their understanding about Heaven. You get what I am saying? God start to change their understanding about Heaven.

Let me tell you, if you only know National Geographic. If you only know some earthly place, if that is all you know, you miss the Message you know.

If you know water baptism, Godhead, serpent seed, no eternal hell, all these things and then in the end you don't know if you're going. And where Heaven is and what you are coming into and what God trying to bring you too.

Then what was the knowledge of all that, because this same people, the foolish virgins who was right there, when the squeeze come, they was in it. When the tribulation come, they was in it. Knowing all this but didn't go. Is knowing, something has come to us.

Brother when you see people talk about some little space craft, come in the back of the house. And two little green man walk out of it. You know like two elves, or some kind of different things and you know people get all kind of perturbed. And now man go and buy telescope, and man watching the sky all night, and man you know trying to find these things.

And then we have Angels come down. We had a prophet here in two worlds, a man who travel in time. Did you know when he

went behind the curtain of time, he went from time to eternity? Do you know the reason that nobody couldn't get old there, because there is no time there? Do you know anybody is not bound by gravitation there? Do you know we trap in time? That is why we aging, we bound by gravitation here?

Now science they was experimenting to get the ship invisible, not to transport it. But in their experiment they hit something and something happen that they didn't expect to happen. And the things, they didn't get invisible alone it disappear and end up in a next place and they shut down everything, make it top secret.

When the people had come back, people fused to the ship, all kind of things, people disorientated. Some men, some of the soldiers couple of them in a bar afterwards, one day some five batch of men disappear in front of the people's eyes like that.

Because how it affect them when the ship breaks that zone and went there and come back. Remember Adam go to take from the tree to eat in that body. And he say no, no, no, less you eat and live forever in that body. You know what it is to be trap with sin in a body that can't die? We getting somewhere. You ain't glad the body dying.

The prophet say, "Now they find out that death is a great thing. If you have to get trap in this body you can't die. You would be the most miserable person.

You trap in a body you have temper, you blowing up. Brother you living with your temper; you living with lust; you living with pride, you living with self; just a few years in your life before you're converted and God take that out of you. And you see how much shame and embarrassment you cause yourself and other people. Where you're drunk and you vomiting down your self. You doing all kind of vulgarity and different things. You know what it is to spend eternity so".

He say no, no, no, He say dust thou art, I shed some blood for you, go your way. Come up in the resurrection. That was God's grace, that was God's grace friends.

It is still not know what happened that day in 1943, mainly due to the lack of witnesses coming forth who served abroad the Eldridge. There is also no documentation available to the public, which details Project Rainbow. It may have simply been a degaussing experiment (that is trying to make the ship invisible).

You know they shut down everything and keep secret how the thing disappeared.

But how did the Destroyer appear seconds later in Virginia? It's impossible the answer will never been known, but the mystery may be solved, when scientist rediscover what happened in Delaware Bay.

Now the reason I'm bringing this in here, is to show you why they does spend billions of dollars trying to go into space. And why men does spend their life time to unlock that secret.

But the point I'm making is, they trying to achieve something that is already achieved.

They gathering all information from around the world, anybody ever see a UFO tell us? Send it, describe it, and tell us what happen. Any body has a picture or some little movie camera they spot a UFO flying, send it to us. Anybody who is Psychic and does talk to people in other worlds, come let us examine you.

Why you think brother Branham went and submits himself to that experiment? And they say but you could dream while you are awake. Because they see a man standing nightly telling people things in their life, going back into generations and then going in the future in people's life.

They say wait a minute, how does this work? So would you come for a test? See? Then he start to tell them how, he said he read about the Old Testament prophet? and open a whole next world to them. He say the doctor sat down and start to cry. He had never thought about that.

Then here was a man went beyond the curtain; he found that world; he found them people. He talk with this extra terrestrial intelligence. From eighteen months the first vision, all the way to fifty six years. About fifty-four years of this man life, live in the supernatural, in two worlds.

Yet they did not take this knowledge and base their experiments in it. This man could have tell them exactly what happen in the Kremlin. What was going on in the KGB, every enemy the United States have, what is going on. He could have tell them.

Like Elisha used to tell the king of Israel. Yet they don't want that, they gone to put up a spy satellite. They say we make that, this scientist put up this satellite. This man you know invent this

electronic listening device, that would hear you know a conversation about two miles down the road.

They want something that they can do. But here is a man went into that world, went into that body, come back, know about eternity. Know that all these things of Mars, he could tell them but they don't want yet that achievement. That is still the spirit of Cain.

God is showing him, come this way, do like this. He says no, no, no, he went out the presence of God. He start to work in science, still working in science up till this day.

And still a prophet come with the mystery of the Lamb and one who by the mystery of the slain Lamb, went into the world and come back. One by the mystery of the Lamb did all these things. And they refused to go God's provided way.

Is the same thing believers does do, to get rid of things in their life. The Word does tell you a way to be delivered from that and a way to be delivered from that; and a way you have to fight with that no more. But they does want a next way; they does get talk into another way; they does get influence in another way. Then they end up walking in the council of the ungodly. Then they get under somebody else idea. Then they want to read a horoscope. Then they want to take a bush bath. Then they want somebody to read their palm. Then they want somebody to see something else for them, why? They fail to see God achieve a way already.

The prophet say, 'I went beyond the curtain of times and millions come running', he say, 'now our precious brother'.

I begin to think of that, I say but he was in Heaven and he was talking in English. But it had German people there, it had people from Africa, it had people from all over the world, millions. It had no millions from America but the big meeting was outside, to have millions.

And them people most of them countries, me I does travel, they not talking English. I does preach with three interpreter almost every place I go. Sometimes one or two people know a word of English. So it had to be something like on the day of Pentecost. Because they wouldn't be speaking German or Zulu or Portuguese and then die and go in Heaven talking English. You get what I am saying?

But he was hearing every man in his own language. He was saying if you go back over what he said, he said and it will teach you many things that took place there.

What he's trying to tell us friends, is like Joshua when he went over in that new land. They had never gone all their life was in the wilderness in journey and in Egypt.

Let the musician come for me. And they cross over in that land and they brought the evidence of the land, that the people was coming into, to live in. And the people was feeding on that evidence before they went in, seeing and understanding what lays in that land beyond the river. There's a land beyond the river, that we call the sweet forever. And that there is one who cross over in that land. One who brought back the evidence of angels and teach you about angels. One who come and teach us about Theophanies. One who come and teach us about dimensions.

One who come and teach us about gifts of the spirits. One who come and say about Heaven and Hell. One who could warn us about that downward part and don't ever go that way. And tell us about the blessed place the regions of the lost. One who come and teaches us about the time this is to happen. One who went in the scriptures and pull out the scriptures, that holds the mystery. Where these things is encrypted in the bible, to show to us what you all are going into, this day has happened many times before in the bible. He say you all will be changed, look Abraham, watch how he comes to the change.

Watch God knowing at the end of his work, God is going to change him. Watch the last sign before the change. Watch the first work that God did, when God called him out to separation. Watch every step that God took him and every thing God reveal to him until he walks right into the change, step, by step. Watch how Jesus took them as fishermen know nothing about God hardly. Yet they had something to recognize that Messiah when they saw him and sitting under him. He say the word I have spoken to you, I have made you clean.

Then He open their understanding; then He open the Word to them. Then it bring them under an anointing; He open the mysteries of the Kingdom to them; then He make a way for the Spirit to come back into them. Then the very things He thought them, and trained them in, they begin to see these things become

operating in their life. That they was doing the same things He was doing and he was proving that that was the achievement. That was the work, where He took them from and what they became.

Where Moses took Joshua and Caleb and them from being born in bondage in Egypt shut up in a system that they can't deliver themselves from. And where Joshua come under that very place and then stop the sun, then open the Jordan, could do these thing, could be in such close contact with the unseen Captain, that every move he have to make he knew how to take that piece of land. That revelation was coming. Had faith in the commission that God open to him and confirm to him.

Look at Elisha walking, type of the Church and Christ, Elijah and Elisha too. Look how when the Bride goes up and the same message, same Spirit, same power, same everything, goes over to the hundred and forty-four thousand, same Word.

It's a great time friends. Things that the world is trying to figure out. Things that science is trying to achieve in their experiments. The prophet say when he came the Church was in such a condition. And hear he, he says 1960 science is going to find God before the preacher does if he don't watch it. In he researches, that's right.

Conference 1960, science is going to find God before we do. They are searching in the realms and got the lie detectors and things that they can move that there is a power.

In Christianity we have a thousand denominations and the whole Christian world is deceived, you know why? Congregation can't detect the lying spirits in the pulpit. Ministers preaching three person in one God, woman could preach, eating salt biscuits, drinking Pepsi and things for communion. Don't even know what the evidence of the Holy Ghost is, believe in Santa Clause and all these things, intelligent people. Yet, the church out there is a deceived and a lying spirit exalting its knowledge above the Word and the people can't discern that.

Yet you get to a scientist and you want to lie to him, he put that polygraph on you. If he comes out to prove whether you lying or not, all he have to do is say, you believe that, you want to convince me of that, he say no you are lying. He say no I'm not lying, he say subject yourself to a test, let me test you. He strap that unto you, you know why? He come into contact with a power that

prove could prove a person lying, even though they tried to tell the truth. They lie as innocent and make it sound like the truth.

He say, 'Why? Even the mechanical devices, the machines that science has made, I rebuke the ideas of these churches that say there is no such a thing as divine healing'.

He says, 'In England they had a bunch of preachers went down the Hospitals, start to pray for the sick, people was coming out the Hospitals left and right, in the 60's there.

The scientist see that, they say what is this? The church world was calling them false. These divine healers, them people is not really being heal the days of miracles over.

So the scientist went down, they took some aluminum lead foil and they put it on the man hand. Took the x-ray camera and when he was praying for the sick, they took the picture and they saw this ray coming out of the man hand going into the next person.

He say Readers Digest carry the article, showing that there is something supernatural when God say they shall lay their hands upon the sick.

A message called "Expectation", he say, 'One time, he didn't have electricity but some man believed there was nothing, he kept working tireless hours until he discover what it was.

The Church didn't discover electricity you know, Science. The same by television, and auto mobile and so forth. God put all these things here for our benefit, and how that science has taken man further with his five senses, than we have taken with the soul. We've got untapped resources where all things are possible'.

"Questions and Answers, On The Image Of The Beast", he say, 'Science has taken man forward greater things with his mind (and that's one of the thing he has with the tree of knowledge,) farther than ministers has taken the church in the Spirit, which is unlimited'.

Because the prophet has come to take the Church further. Start to talk about visions. Start to talk about Theophanies. Start to talk about ministries of Angels and the church world rejected him.

They say he is a mystic; he's a fortune teller; he's hypnotizing the people because they wanted to have a nice classical religion. Nice robed choir, nice intellectual ministers, nice little social programs, where they can feed the poor. Take care of battered wives, do work in society, have a little team, give them a nice special name

like The Gideonites or something. Put a bible in every store, every hotel, a bunch of people giving out track by the corner. They had their idea of what they think the church should have been.

When a man come and begin to preach about line up the women, line up the men, clean out the Church, bring back the old fashion altar and the old fashion prayer meetings and these things. They didn't want that kind of Church.

When a man talk about get back to the apostolic doctrine. They say the days of the apostles is over. God don't do those things no more, Seventh day Adventist all these people. Now instead of they have programs, missionary work, they build Hospitals instead. They build schools instead; they get better-trained doctors instead; they get more intellectual things like libraries and different things instead. And they do that kind of work because they believed that that's the way that God is doing it in this day.

He say, 'Look how science has progress in the past hundred and fifty years'. Now hear the point he's making now, 'they found a power detecting lies. They found there's a power to laying of hands; they found there is power in prayer'.

He says, Their progress in splitting the atoms. You know what sciences is beginning to find, as they are fooling with the elements of the air and through the atoms. Atoms revolve round back and break down back till it come back to God. Life revolves back to God. Science is proving things now for they are basing it right back to God again, they are finding out that that it runs right back again.

From this pulpit he said spoke a mighty scientist not long when I was here. And he was questioning me in the back room about the light, that that angelic light had appeared. Had it in the papers on the picture. He say Reverend Branham how did they put a meter on a dying saint. And it was dying and it slipped out off in a room and her not knowing anything about it, and when her death struck her she wasn't afraid. She lift up her eyes and asked God to forgive every enemy she had. Thank Him for the life that she lived and when that meter was put on zero, enough power raised from that woman, supernatural something that went from her and that caught on to that meter, made out of the same thing, as a lie detector, that she knows.

You wasn't made to tell lies, you can put a thing around your wrist and put it, there let it try something. If you're not telling the truth it will show you are lying. For there is a pressure on the light that goes through your nerve the energy, which is the soul of man that wasn't made in the beginning to lie, but to be truthful.

Science has made that to obtain a place, the same thing upon truth, Why? These saint of God dying who would run from her own home because of her belief in God. Say I run this woman out of her own home. They said she was crazy because she had accepted the Lord Jesus and believed on Him. And enough power come from that woman to send a radio message around the world five times, I believe it was. The power coming out of that dying woman, gone beyond the moon. The stars to the throne of God with that prayer to a sinners poor heart in the hours of her death'.

This doctor, this scientist had spoken, the prophet say right when we was in the pulpit there. And that same doctor was questioning him about the Angel and the light and so on. And the prophet is quoting back to them in Chicago what the doctor had preach. And showing how the church was backward because look what science had moved too.

They discover a power in detecting lies. A power in laying of hands, a power in prayer. When the Church was stopping the prayer meeting they was staying home to watch I Love Lucy. They was finding out a dying saint how her prayer could send a radio message five times around the world.

When the church was saying they don't believe in all this healing, divine healing. They was finding a light leaves the man the very virtue of Jesus Christ. The very power of the Holy Spirit working through the mystical body, think of it.

And that man standing there as a representative of God with faith in a finish work on Calvary. And laying hands by a commission of mark 16, where that scripture is being interpreted, through the man bringing that virtue, that was made available from Calvary flowing through the members of the body. That is why the prophet say lay hands on one another. Let a surge of the current of the Holy Spirit, say eagle to eagle move right through this build here.

And will teach this church that, they don't need a lot of prayer line. You believe and lay your hands on one another through the building. And the people were moving that kind of way.

Many times people does condemn science. I not picking up for science, that is of the devil you know that. But I'm trying to show that what they finding out and they know as fact, by the test, and the church with theology is not sure that is so. And believers with sickness is not sure God wants to heal them. And they not sure it have a power, and they ain't feel their hair raise. And they ain't do this. And science is saying no, that man lay hands on that man there, is like a surge of like a current move from this man to this man.

Prophet say, 'You ever see a little baby, all fretting? And the mother hold that baby and begin to stroke that baby like this, be calm, baby be calm. And that nervous, tension filled baby just get calm and fall asleep'. He say, 'You see? That mother laid that hand on that baby projecting the love in her into the child, quieting the child's spirit'. He say, 'You see there is something about laying of the hands.

He say, 'You ever notice, when you have a horse or something and that horse all worked up you know railing up and that trainer say, "woe boy, woe, woe". And begin to stroke that animal, he say that horse does get calm'. He say, 'You see there is something about laying of hands. God knows what He's talking about, they shall lay hands'. Instead a man lay his hand and say Mark 16 and don't have any faith and don't have any love of God and don't care about anybody and just, nothing does happen.

When a person come all irreverent and they not sure and they don't believe, no you could do it. You and your children home, you don't have to wait on, no minister to do that. It says these signs that follow them that believed, believed them that believed. Sometimes we sit down there with more faith.

Like the prophet with the woman there bringing the baby, and that woman, say sister I don't want to do this you know. But three times I tried to stop and this deep telling me pray for your baby. And I know Brother Branham is going to pray for your baby, and I know you come for Brother Branham to pray for your baby. But it would make me feel a little better because I can't seem to get this off of me. Would you mind if I pray for that baby? She says oh sure honey, here you know, lets agree, pray. And then the woman comes to the platform when her turn came, watch the Holy Spirit, Brother Branham stood there, he say, 'wait a minute something has

happened here. He say this baby was healed a few minutes ago, somebody prayed for this baby'. He say, 'that woman there, he say now you see the grace of God'. He say, 'she being a mother would have more feelings for the child than me. I have the gift, I could see the vision, but she have more feeling for the child than me, being a mother. I know the Word, I know all the keys in the Bible. But she have more feeling for that baby than me, being a mother.

Why can't we believe? Why it does be so hard to break in? Why does our mind get grip under so much of theology and psychology and self? Why can't we realize the grace of God and the love of God. The blood purchase that God made it so simple for us? And is given to you, if God gave you salvation; salvation is a far greater thing to give you than healing, far greater. Because you get sick, you get sick again. But you're saved, you could never be lost. If they could only relate to these things right.

If you could relate to these things seeing when the Lord would take up Elijah. When the Lord did the work to heal you. When the Lord made a way, to send somebody with the Word to you, that you could believe on whom God have send. When you see the Lord, how he comes behind and endorse and confirm and vindicate and prove. To give you a place to tie so when the mind battles comes, you could come back to them places. Knowing that God met with you there and God did this for you. So you don't have to doubt, your tie post can hold in that dark hour. God doing everything that He can, so you could have settled peace, you could have blessed assurance.

And yet it seems like the first will become, they say then he slipped into a man, that is an infidel, dying with a venereal disease. And he send a young lady in there to get him all emotionally worked up, (the scientist doing this, as a scientist). And then when he get angry with here, begin to curse and take God's name in vain. And the meter turn back as far the other way as the Christian did this way and the scientist was converted. And say God respects people who use his name in the glorious way and believe Him that much. I now believe in Jesus Christ and accept Him as my Savior.

The scientist get converted, because he's just running a test wanting to know, I wonder if it have anything behind prayer. And

found a dying saint praying, when they put that strap on her hand and it send that meter this way, enough power to send a radio message five times around the world. And the infidel, dying of venereal disease, and when that young nurse went in there, he get all worked up and emotionally worked up, and you know he start to carry on and curse everything else. Instead of the needle go this way, the needle went the other way.

Here's a positive force and here is a negative force. Here is a man, a woman soul sin is forgiven under the blood, saved, have peace made with God, and thanking God for their life and getting ready to go and meet Him. And here is a man reject the gospel, live a sinful life and dying and going to hell in that condition friends. And that needle went the other way completely.

Men are trying to achieve for them selves, something for them self always. Something that they can say I did this and did that. If people could find a way to control the rain, put crops and take it off of crops. How they could take a medicine they could find somewhere, cause an old man to returned young, live forever.

They are trying to achieve that but it's already been achieved. They trying to find a way to go and search space, already achieved. The trying to find a way to go in another world and be young, already achieved. They trying to find a way to have control, power over the elements, third pull, already achieved. They trying a way to multiply bread and feed the world, already achieved.

Everything already achieved, new body. Jesus already achieved, glorified. Not by might or by power friends, an obedient heart to come God's provided way.

In the soberness of your own heart today. In the reality of these things, can you see, you believe it's the time appointed. The elect to be taken up in to Heaven by God? The mode of transportation being revealed to us? Your angel is going to come and get you, pick you up one of these days, think of it. The taking up, another dimension right here. The point of extraction beyond the Jordan, total separation.

So do you see it's not saying well I don't know if I'm going, no, no. Here was a man under the Old Testament, who live and walk with God, whose birth and life was preplanned for that hour. Who come down to that junction in his life.

He know I'm not going to try to repair the altar at the evening sacrifice. I'm not going there to try and shut the heaven, no, no. I'm not going to rebuke Ahab, all of that was finish. You know now I'm leaving, leaving was on his mind. Here was a man that leaving was on his mind. Here was a man knowing the same God who met me and commission me. Same God who called me; same God who saved me; same God who gave me food when I had nothing to eat under the tree. Same God know when I was all nervous and weary. And depressed and full of tension and nervous strain and a neurotic state, come and lift me out of that. Same God when I was hidden away some where in the cave there, knew exactly where I was and come to me, He encourage me. Same God who tell me go and anoint that young man there, go and do this over here. Same God was saying now, now you're going.

Let's have a desire to walk with Him like that friends. If the scientist, I didn't have time to read some more of the things for you. But it had become the main objective right now, they are trying to unlock the secret of anti-gravity, anti-matter, zero point energy. We need more power they realized. We need to find out how to loose ourselves from this gravitation. We need to find something that would make us travel faster than we can travel right now.

They say if it is not out there way out there. In one of them planets, we have to travel so much hundreds of thousands light years or millions of light years to reach. They say it could be another, what they called another parallel universe right here, occupying the same space, in the same time. But we have no proof of it yet, we haven't discovered it yet. We haven't located it yet.

So far they haven't located the sixth dimension. They haven't located the fifth dimension. But you know it have people, remember my message on the Realization Of The Insane Age, and The Witch Of Endore, how Saul got the woman to contact Samuel. The prophet say they can't contact the redeem today, but they could talk to the dead, and he talked about Miss Pepper. He say she was a genuine one. She contacted that next world and she would converse with people from that next world.

You see to go into the third dimension, you not coming through your body, you're coming through your soul. Your going through there by your soul. Because flesh and blood can't get there. Flesh

and blood with science and technology without repentance, they get up into the first Heaven and they get up into the second Heaven. But to get into the third Heaven, a man soul must be right, a man soul must be under the blood, because sin can't get in that realm. Nothing of sin, a man sin has to be done away. That is why everybody who is there right now in that sixth dimension, they leave their body here, nobody carry this body there.

I believe we'll go one of these days. I believe when the prophet came back, with the evidence and the testimony and eating the very grapes of the land, that's what we are feeding on. It makes the curtain transparent. It makes us look through his testimony that science refused to look through the eyes of his testimony. But we have received a witness; we have received a witness who tells us, what is laying there. He say, I tell the people, I see many of you over there. He says your angel that behold the Father's face is that Theophany, that lays beyond there.

I used to think before you know the Theophany is a body, is a body, is a body, is a body. But when he says angel, it is also your angel, it takes on a different meaning. Because I used to get the thought if the soul, my soul, me, that gene of God, me in this body, I can't live in two body at the same time, but it have two natures in one body.

Because in this body I have divine nature and I have human nature. God killed the first nature and I'm coming to a new nature. I unite to a new nature. And the me I talk about now is the me that I discover in the Bible. Sometimes everybody who know the me from my father and my mother, they want to relate to that me. They feel more comfortable relating to that me. But I believe the new me more than that me. Because when that me, tried to come back to something, I does shut him up. And when the new me in me talk I does go with that me.

And anything I have to trust I does trust that new me, not this old me. The me, that is from Sylvia and Mutton, I don't trust that me at all. I know what that me is capable of. But the me that was laying inside of there, the Son of God. The one that I found that wasn't Sylvia and Mutton son that son from the loins of God that one. That is the one that have a body there. That is the one that have a body there friends. That is the one that have an angel there. That is the one who can communicate with that one over there.

He say you have heard from your Theophany, that perfection is calling you to that perfect place. He says, 'something is calling you', he say, 'deep calleth to deep and the deep in you, hears that call'. He say, 'and don't you feel that travail, to go back there in that place where that one calling you from?' It's a call that one there don't call this man you know no, no. That there does called the inner man, this is the negative, that is the positive.

He say, 'it takes death to put you through the dark room. Like they take a picture, and they have the negative and it have to go through the darkroom and the acids. And then they bring out the picture, the real picture, that was snap, that beautiful picture. And you find yourself in that body, that is the real picture. But this man here this is not the picture, this is the negative telling you, there is a positive one here.

There is two you, two part of you in two worlds. Aren't you glad for the things God made known to us through a prophet? Aren't you glad to know where you was before birth and where you would be after death? Do you know outside the message nobody else in the earth can't correctly explain, where they'll be before birth and where they'll be after death? You know that was sealed up under the fifth seal? Your pre-existence, your earthly journey, your eternal destination, your journey from the pest house to the Theophany, to the glorified body. A journey that takes you from eternity, bring you down into time, and take you back to eternity. A journey coming through three bodies to complete the journey, oh my.

And each body, you live and go through a phase of experience. Here, this body bring you to this kind of world because a sex birth couldn't put you in the faith civilization. A sex birth had to bring you in this kind of world. Because to get in the faith civilization, you have to come by the spoken Word. But a sex birth can put you here in the realm of animal. That is why in the book of Daniel, man kingdom was type by animals. Nations was represented by beast. Because the animals ain't have no soul, they live by the instinct. But where Adam was walking here with God in fellowship, the animals was not there friends. They right there with him, in this dimension. But where God and Adam meet and talk, where they had communion and fellowship. And God could name

to Adam and show him the mystery of redemption in the Zodiac in nature the animals ain't know a thing about that.

And when that same God come back in the last days and break the Seals, is for those who are caught up there. It's for those who are caught up there.

Oh my, I trust you appreciated the Word and because you know something, I'm tired of this world friends. I was saying the other day it terrifies me sometimes, when I think I have to step out the walls of my house, to go in the world, what am I going there for? But if I go, I go quick in the grocery buy some food and go back home. It has nothing there for me. You look and you see from the smallest child to the oldest person, doom. You see the darkness in the world. You see the lost generation, the apostasy, you see Hell. You see the demonic influence; you see what they called church and religion.

Like these people from Christ Castle they had some big concert, a week ago, they was talking about they was going to have this big gospel chutney concert.

I say my God, we have gospel chutney, we have gospel dub, we have gospel calypso, now we gospel chutney. This is man with a PHD; this is a man who runs with a PHD. And this is man who puts himself as the spokesman for all Pentecostals in the Caribbean almost, just the blind leading the blind friends.

And you know something even among that sect, maybe he's one of the best among that sect, as well. But to show you what the world's best is and their condition.

Get ready to go friends, there is no hope here. You have that taste of the world in your heart. Ask God to cleanse you from it today, ask God to change. You young people, you like the malls, you like the music, you like the fashion out there. You like that because the nature in you that you born with is part of it and you can't help but like it. Because you're born by sex and that is the only birth that you have, that is all you know.

But if when these things are being spoken, there is something that catches your thinking, there is something that make you ponder, and try to think beyond there and say is there something really real beyond this?

I was a young man just like...but once you're not fifty-four I was your age. And the prophet say 1969, I was eighteen years old,

when I had reached eighteen, I had done things my father maybe sixty something years had never do. And I considered him, he was such a waste, lived a wasted life. A man who was in the world fully, and at my eighteen years he was just like, a good man compared to me at eighteen years. And when I found out that the scientist say they was looking up at the earth, my thinking went in another level. And from 69' to 73' I roam and roam and tried to find out everything I could to find this God. I don't know who he was, I grow up believing the Lord Jesus as my mother taught me. Had dreams as a little boy, talked to this invisible person in the cane field.

But when all that left me, when I went the wrong way. I went down into darkness and came back and was in that search. I know that there was God somewhere. And since I didn't know where He was, how to recognize Him, how to find Him and how to know for certain that was Him when I see Him. I begin to ask Him to help me; I begin to ask Him to help me. If He could come and get me, then that would make something good for me. But it was not until the ending in 1972, like I was slipping down into a deep abyss and like there was no return. And something begin to pick me up, when it became like hopeless and like maybe, He didn't even want to hear me or talk to me or deal with me, in that darkest hour then Jesus came.

This is the year 2005, I see many young people around me, I see them liking all the things that I had liked. And I know that some of these things God have to work it out for you. He have to reveal it to your heart; I could warn you; I could try to shake you; I could try to put fear in you, but that don't give you a key in your hand. And that don't give you a way to deal with it. And so when you have some thing and you don't know even know what you have, and how to deal with it, Satan can quickly take it back from you. Because you don't know how to keep it, unless you don't know how to use it and work with it.

But at this age I can't reverse the clock, my best years are gone. Now when I look this way I see the promise, and now because I'm this age and can't fit back even into the things of the world, have no attraction to me. It makes me look at things, that maybe a young person don't even look at in the world.

The prophet say when he starts to come this age, he starts to thank God that there is such a place. But this is not just thinking that this is a place you know for retirement you know, the way is getting clear. I expect to see those things. I expect to see those things, that's why I'm preaching to you.

Elijah start to know he's going. Elijah get convince the one he's talking to his God. Elijah get to a place, he know he was God servant. Elijah get convince his life was pre-planned because the influence of his life was from another world.

When I see in my own life I have no desire for this world. You could offer me anything in this world you want, it means nothing to me. I want to see the next step in the Word, I come too far, I come too far, I get too convinced. When I see what science trying to find is put into our hands.

After this last couple months gone by, I read so much science. But in all my years of college with science books and going from chemistry class, and this class and physics and can't understand a thing. I come and begin to read so much of science because I want to know what it is they are trying to achieve. You know what it help me to understand, it help me understand how to apply the things that we have. Because I maybe would have said, well I know there will be a rapture. I know the Lord would take us up, that is the Lord's business, when He ready for me to go I will go.

But to look at myself I'm not interested in wanting to know. And then I see if I'm coming to church, I want to know where my tie is, where my socks is, where this is, where my bible is. I had everything in place just to come to church. You going to work, where the car keys is, where that is, where your money is if you have to travel. And you want to know where everything is. You want to travel somewhere, you pack this, you pack that, you pack that, where your passport, where your ticket. And then you going to Heaven and if God, it don't work, it don't work.

You mean a little trip from Carenage to Longdenville you does make so much preparation. And you so particular and you so time conscious. And you under tension when you're on the road, if you're in a traffic jam and you're running late. You understand what I am saying? And that is for a short trip in a motorcar. And then you are making a next trip, a three hour trip to Miami. And brother sometimes you talking about that like if it is the first time

you're traveling. You also want the world to know you're going Miami or you going away or something.

Sammy remembered the time, when we were going away for the first time. We going for a Visa, dress with hat, suit all kinds of things to go for the visa. This time they not watching that, they watching to see if you have some reason to come back to Trinidad; they not interested in what you wear. They want to see a deed for a house; they want you to have a job; they want to see a salary; they want to see you're able to take care of yourself there. But brother this was an event that even just to go for the visa, we behaving like you know.

Put your heart into it, don't let anything rob you from it at all. Let's bow our hearts before Him. I believe exactly what He said, they're going to pick us up because when he was speaking he was seeing these things in the bible. The cloud came and took Jesus, God, the bible say took Enoch, it say God take up Elijah, it say a cloud is going to come and we'll be caught up in the air not by our own power, not by our own will.

And the same way they came and they know Enoch was the one they come for. The same one they know and know Elijah was the one they come for. They're going to come and get you friends.

Want to call brother Glaude to just pray here by God's grace. In your heart my brother, my sister, young brother. Let your pray today while you there. Maybe you're not like the dying woman, getting ready to go but in your simplicity of your prayer and your faith there is enough power to send a radio message around the world, think of it. Prayer is greater than the atomic bomb the prophet say, it has more power than an atomic bomb.

Hezekiah prayed so earnestly that God, the prophet says, it make God change his very mind, oh my. When God see a soul in desperation crying out in prayer and especially if you're asking God for something in line with his will. Something that He will be trying, to get you to have confidence in Him, and to hear you of yourself believing Him and asking Him for that. Nothing move the hands of God like that my friend.

Lets all believe, lets all have a prayerful attitude, let's join together with our brother. (Brother Glaude prays.)
